The Superintendent or designee shall establish and maintain a program of guidance, placement, and follow-up for all high school students subject to compulsory continuation education. (Education Code 48431)

As part of the district's educational counseling program, students may be offered mental and behavioral health services under which a student may receive prevention, intervention, short-term counseling services, and mental health related classroom instruction to reduce stigma and increase awareness of counseling support services.

No counselor shall unlawfully discriminate against any student. ### **Personal or Mental Health Counseling**

A school counselor, school psychologist, or school social worker may provide individualized personal, mental health, or family counseling to students in accordance with the specialization(s) authorized by their credential. Such services may include, but are not limited to, support related to the student's social and emotional development, behavior, substance abuse, mental health assessment, depression, or mental illness. As appropriate, students and their parents/guardians shall be informed about community agencies, organizations, or health care providers that offer qualified professional assistance.

Written parent/guardian consent shall be obtained before mental health counseling or treatment services are provided to a student, except when the student is authorized to consent to the service pursuant to Family Code 6920-6929, Health and Safety Code 124260, or other applicable law.

Any information of a personal nature disclosed to a school counselor by a student age 12 years or older or by the student's parent/guardian is confidential and shall not become part of the student record without the written consent of the person who disclosed the confidential information. The information shall not be revealed, released, discussed, or referred to except under the limited circumstances specified in Education Code 49602. (Education Code 49602)

A counselor shall consult with the Superintendent or designee and, as appropriate, with the district's legal counsel whenever unsure of how to respond to a student's personal problem or when questions arise regarding the possible release of confidential information regarding a student.

### **Crisis Counseling**

The Board recognizes the need for a prompt and effective response when students are confronted with a traumatic incident. School counselors shall assist in the development of the comprehensive school safety plan, emergency and disaster preparedness plan, and other prevention and intervention practices designed to assist students and parents/guardians before, during, and after a crisis.

Early identification and intervention plans shall be developed to help identify those students who may be at risk for violence so that support may be provided before they engage in violent or disruptive behavior.

In addition, the Superintendent or designee shall identify crisis counseling resources to train district staff in effective threat assessment, appropriate response techniques, and/or methods to directly help students cope with a crisis if it occurs.

### **Teacher-Based Advisory Program**

The Board recognizes that a supportive, ongoing relationship with a caring adult can provide a student with valuable advice, enhance student-teacher relationships, and build the student's feelings of connectedness with the school. The Board authorizes the development of a teacher-based advisory program in which teachers advise students in such areas as academic planning, character development, conflict resolution, and self-esteem. Any teacher participating in this program shall be under the supervision of a credentialed school counselor as appropriate, receive related information and training, and be subject to this Board policy and law, including requirements pertaining to student confidentiality and nondiscrimination.
