PANORAMA EDUCATION

“

Mehlville School District (MO)

“

San Angelo ISD (TX)

PANORAMA EDUCATION → Hear more from our partners

Elevate and align community voices to district and school plans

- Research-backed surveys customized to the community needs
- Includes our Student SEL Survey, ranked the #1 social-emotional learning measurement tool
- Language translations available to increase accessibility and response rates

Identify district and school-wide strengths and opportunities

- Contextualize survey results with national benchmarks and longitudinal data
- Use benchmarks to compare schools in similar communities (e.g. locale, level, and economic make-up, etc)
- Panorama's free response analytics captures candid feedback to

surface themes specific to a school or survey audience group

Drive individualized support for every student

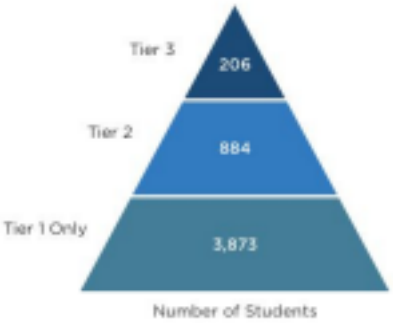
- Dashboards disaggregate data by demographic attributes to surface areas for improvements

Work with the most up-to-date student information

- Daily syncs with **Infinite Campus** for student roster, academic coursework, behavior, and attendance information
- Data integrated from assessment systems such as **CAASPP** and **College Board**, and more!

Connect the dots across multiple indicators of success

- Holistic, easy-to-understand district, school, and student dashboards to track student and district progress toward goals
- Full historical records for every student



Deliver interventions that meet students where they are

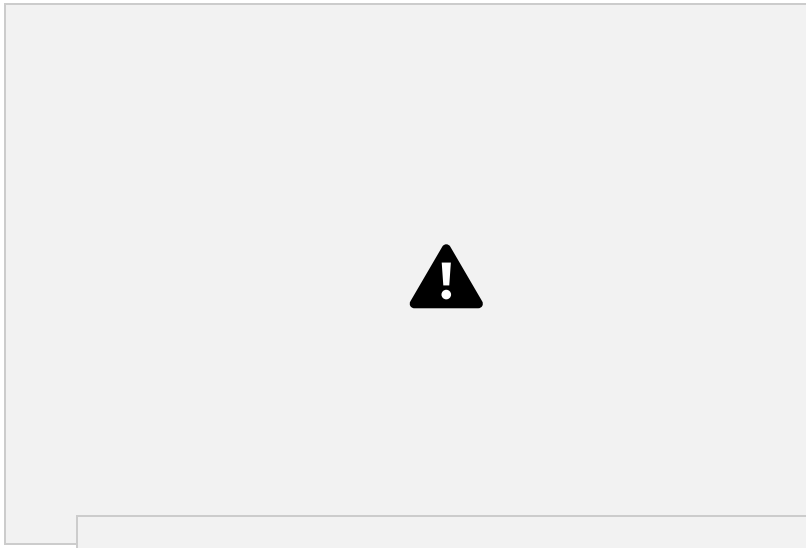
- Real-time intervention planning tools for individual or groups of students
- Pre-populated intervention strategies to use,

modify, or add to

- Progress monitoring tools to determine whether or not interventions are supporting students

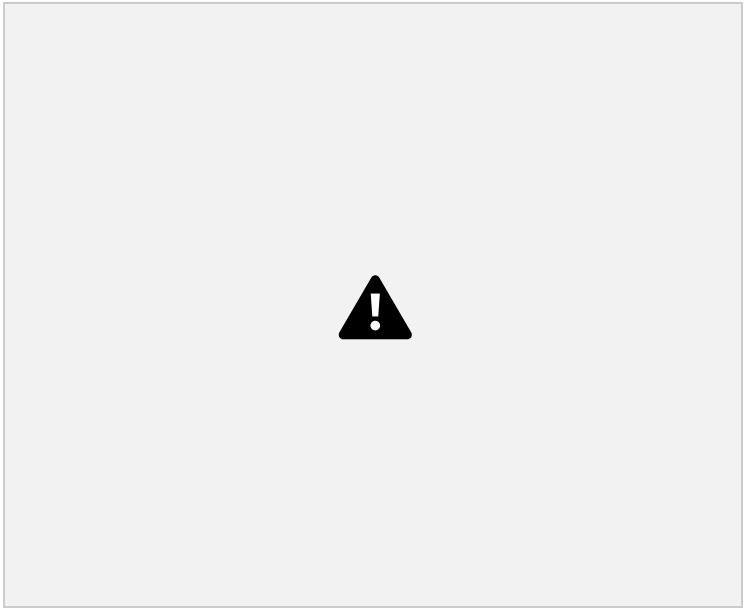
District Dashboards

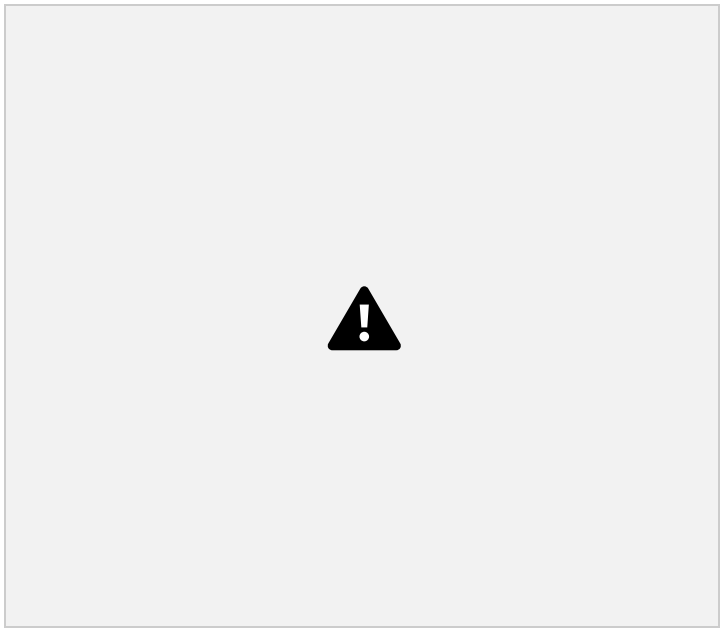
- Summaries of progress across SEL, academics, behavior, and attendance through SIS integration
- MTSS dashboards showing distribution across tiers of support

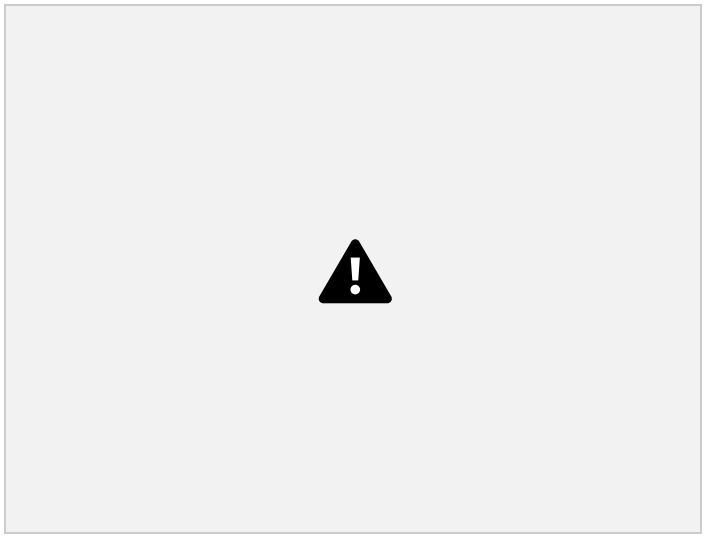


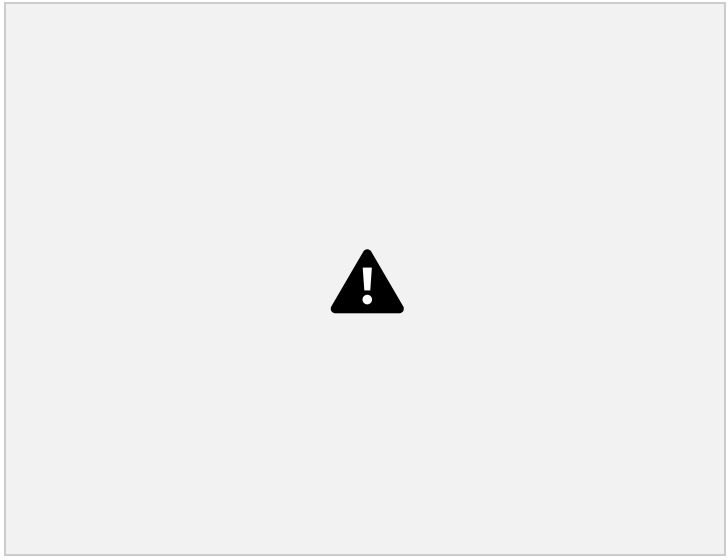
School Dashboards

- Intervention, behavior, attendance, and birthday dashboards
- Student progress at the school and classroom level
- Easily filter and group



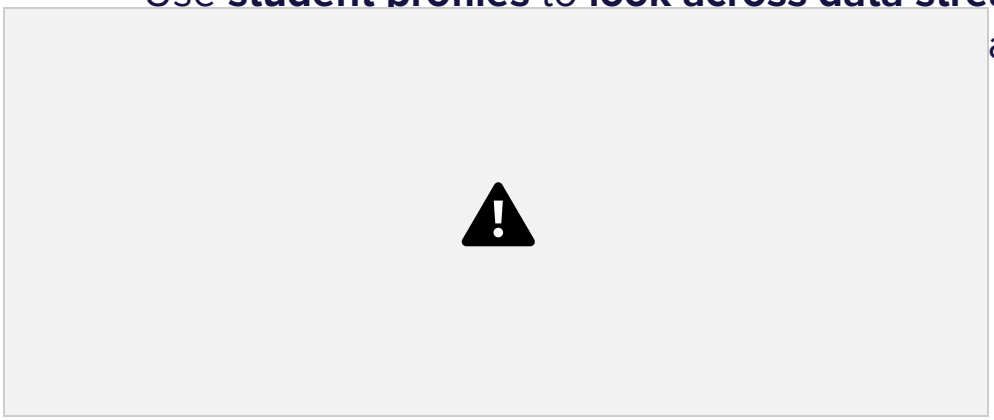


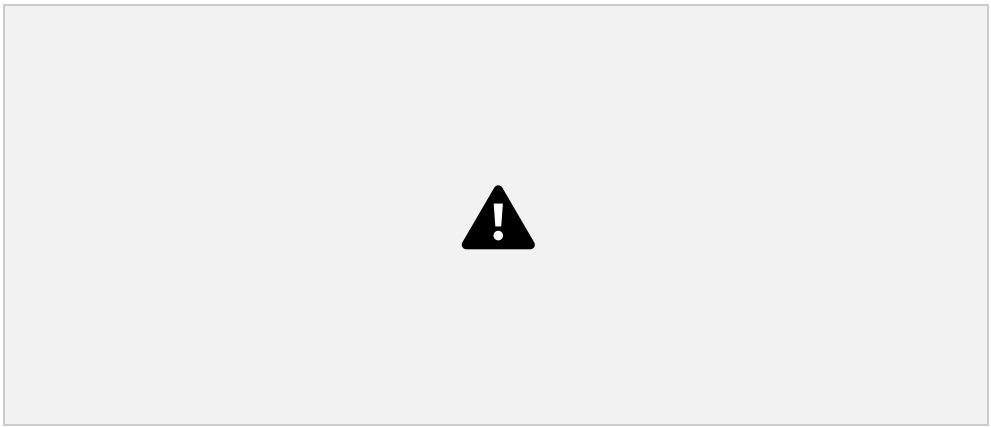




students together based on the data at hand

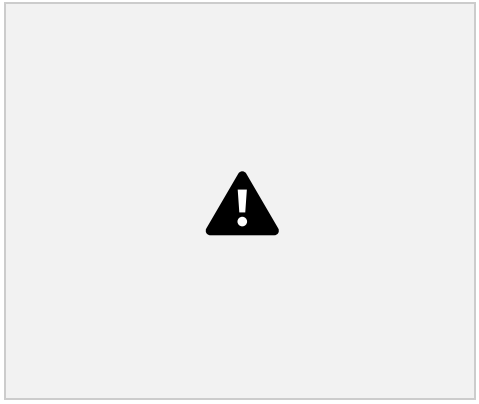
Use **student profiles** to **look across data streams** and pinpoint aviors.

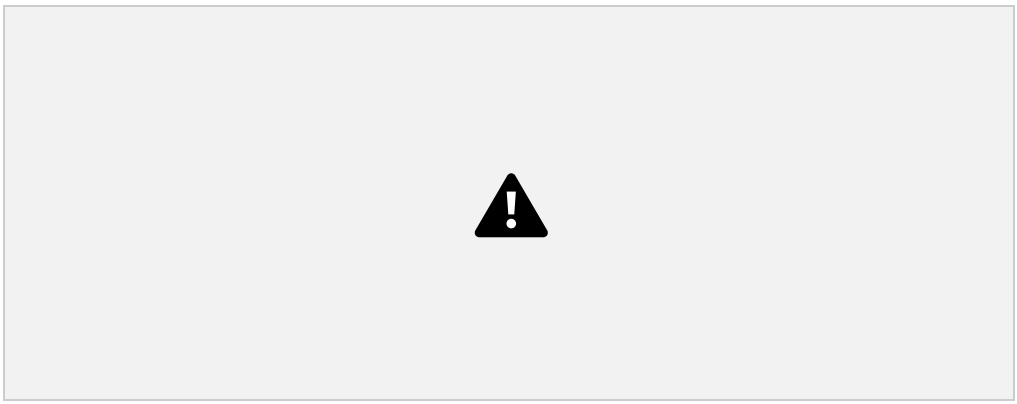


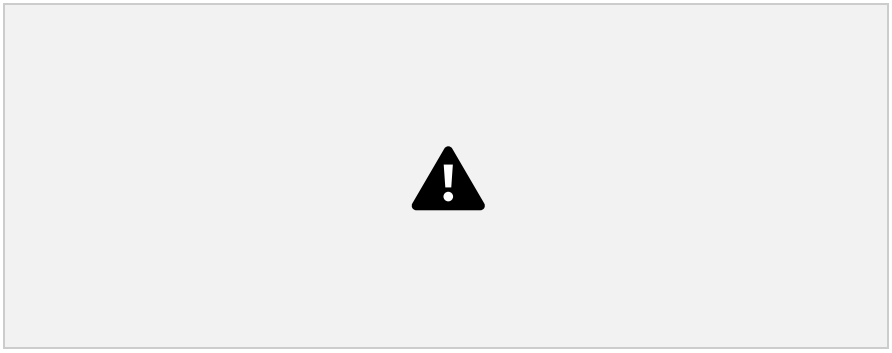


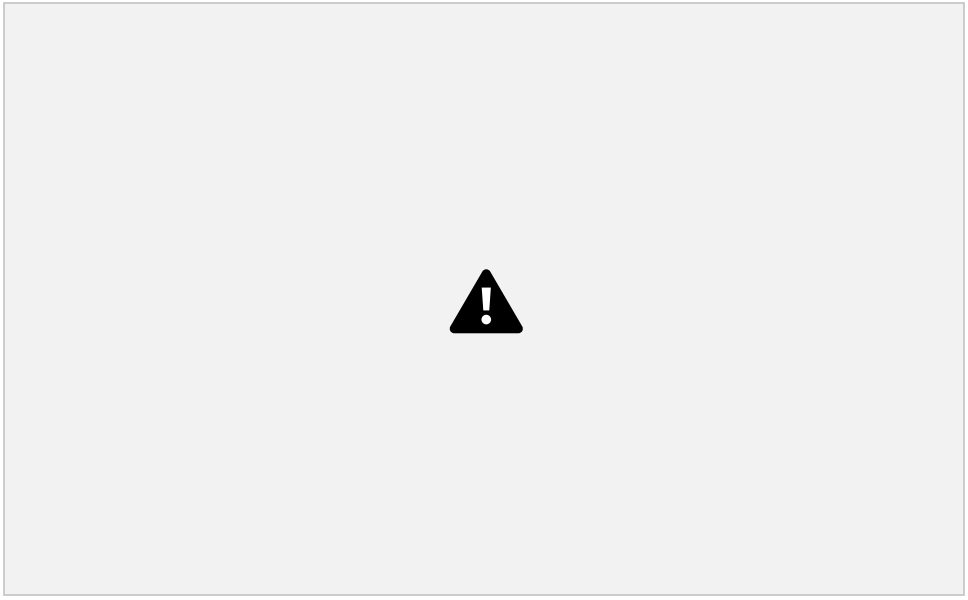
Paint the Full Picture

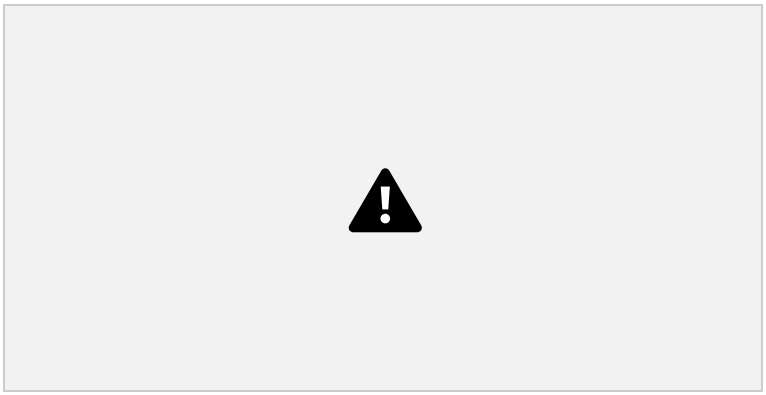
Look across indicators of student performance and take a holistic approach to understanding student needs. Combine academic, attendance and assessment insights









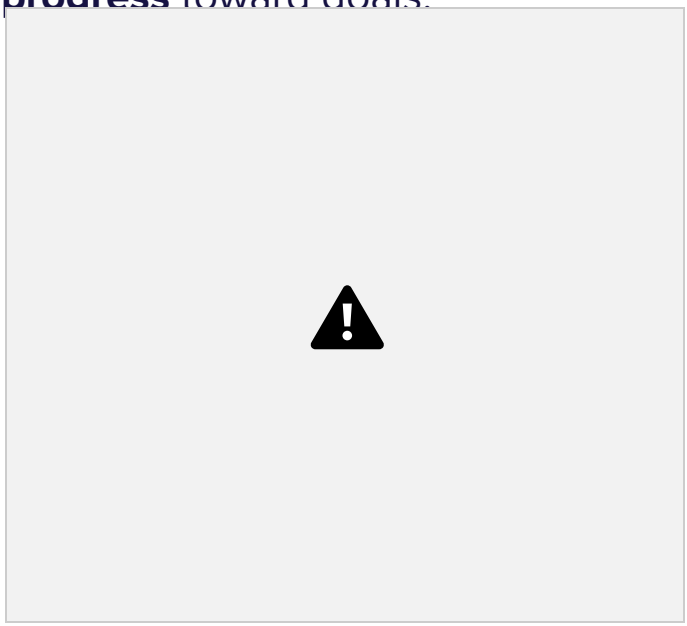


to pinpoint opportunities
for growth and support

Asset-Based Opportunities

Lean on student strengths to address challenges and easily document actions taken for support

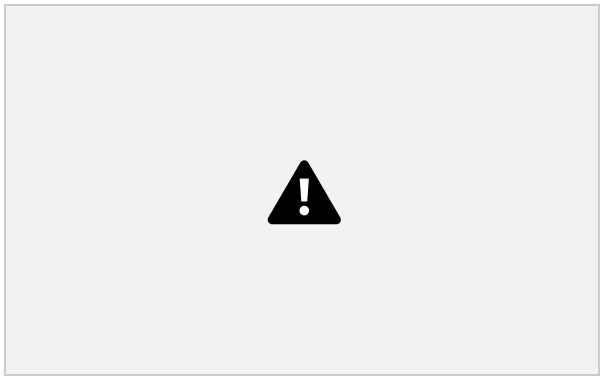
Easily **identify individuals and groups** for support and **seamlessly document intervention plans** and **monitor progress** toward goals.

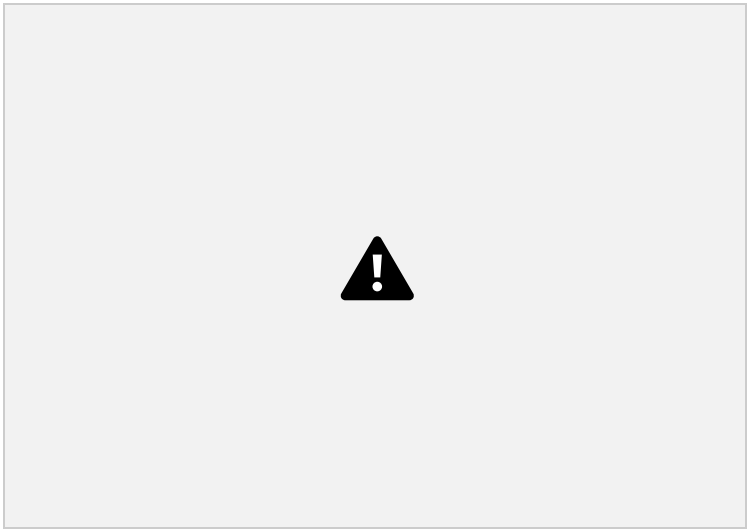


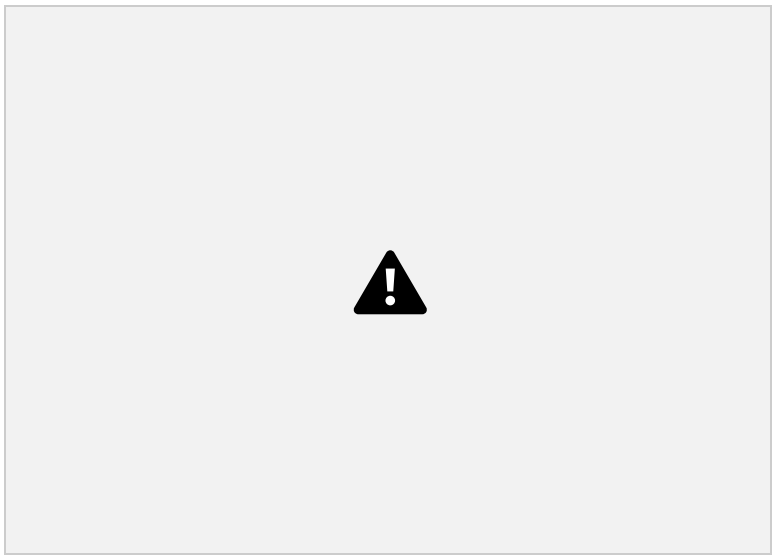
Enable a unified process for **identifying at-risk students** and **monitoring the impact of interventions**

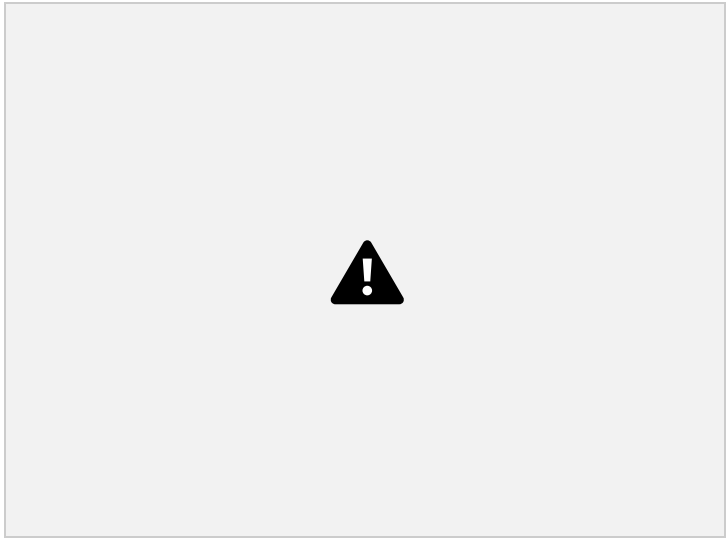
Users will be able to streamline intervention processes by **creating and sharing intervention plans**, tracking intervention **efficacy and impact**, and **communicating**

updates across the school



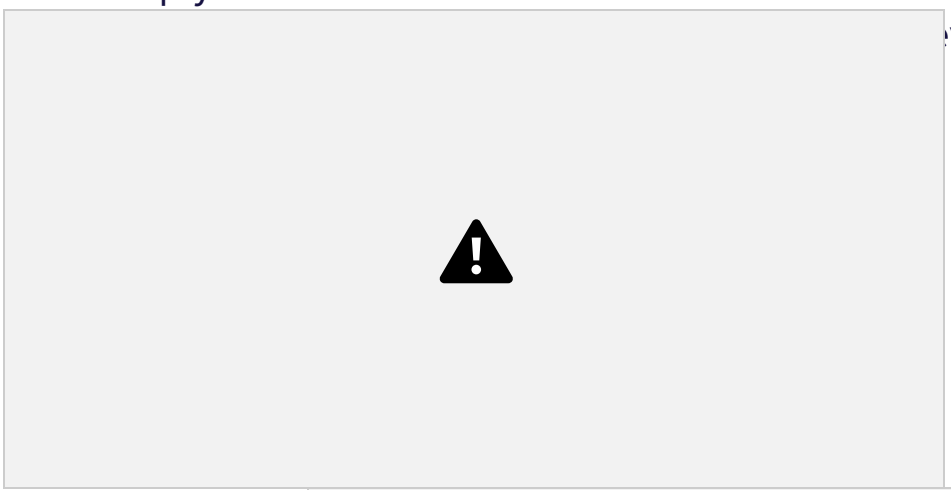






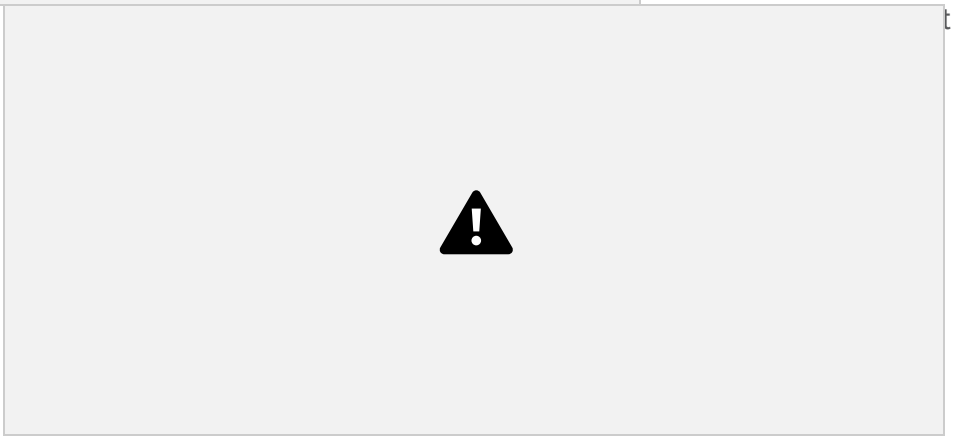
Dig deep on a student's holistic progress by exploring **whole-child data for each student**

Deeply **understand trends in behavior incidents** to identify potential …event future challenges.



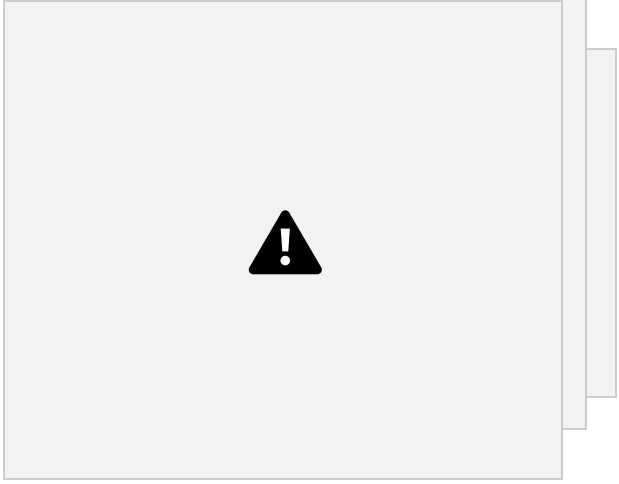
Analyze

See at a high level what types of incidents are being recorded, where they are happening, and at what part of the day they are most …t



See relationships

Identify relationships between specific types of behavior,

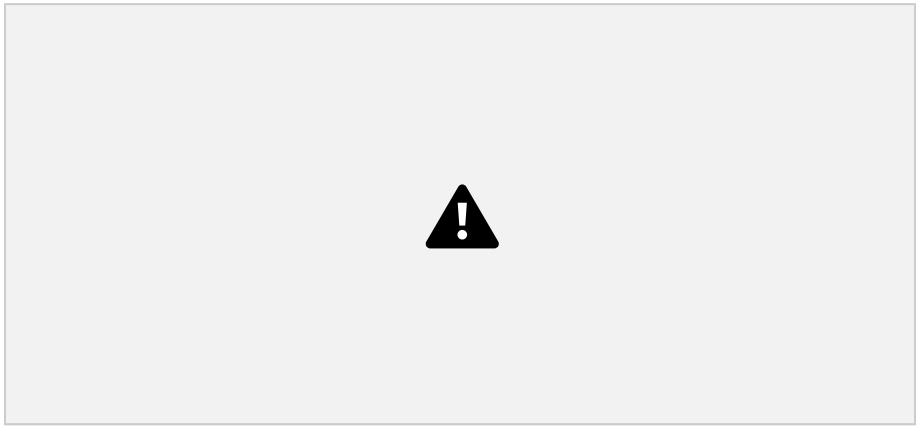


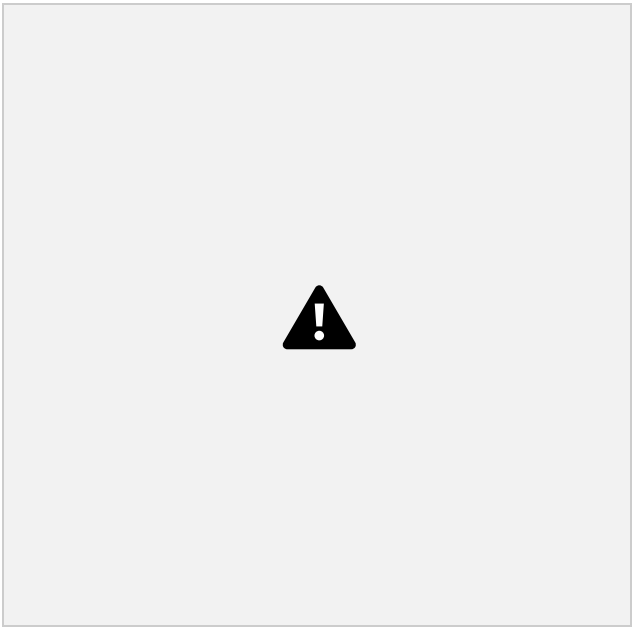
Take action

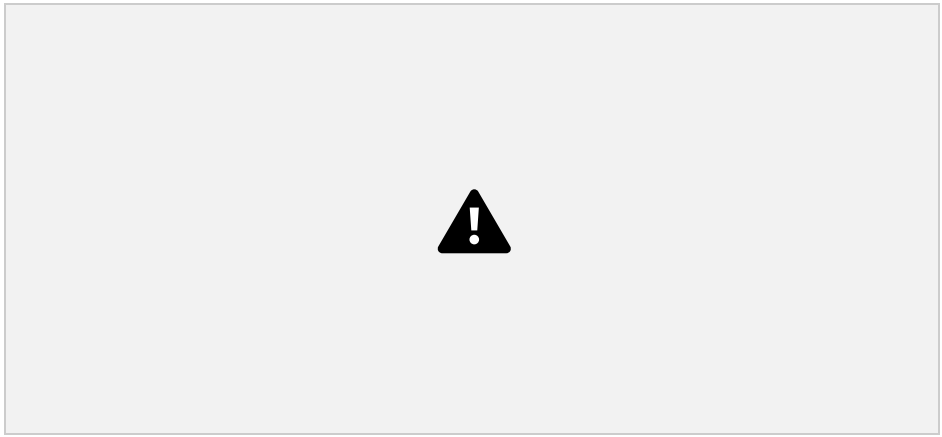
Take action and document interventions in the same place you're

analyzing trends

Use check-ins to routinely **ask students about their well-being, learning environment, relationships, and more**—and get data back **immediately.**



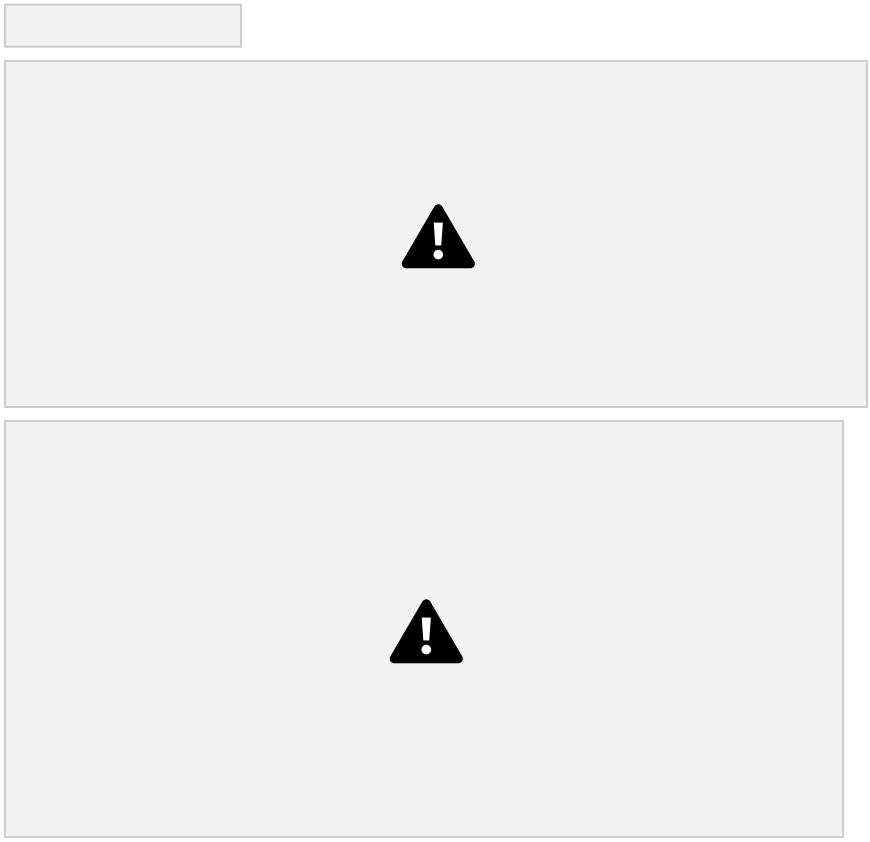




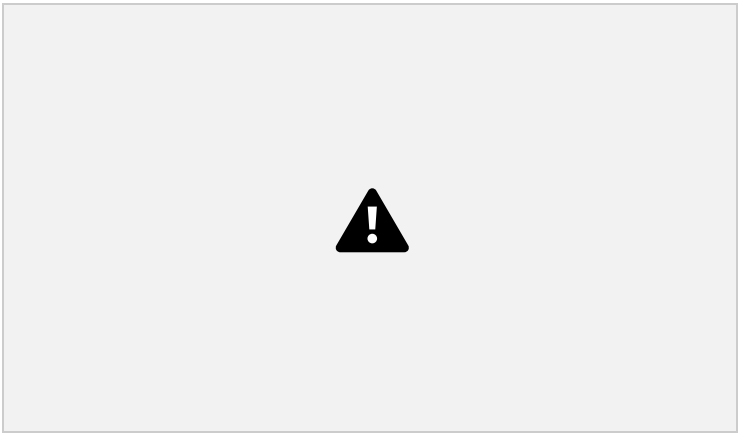
In-the-moment student feedback to deliver rapid supports

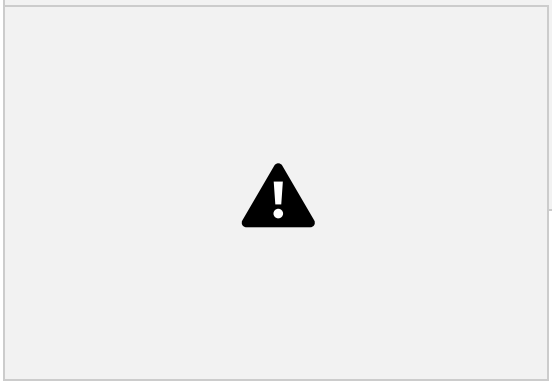
- A check-in tool to collect student feedback on Tier 1 supports
- Choose from a bank of multiple choice and freeform questions on interventions, well-being, and more, and/or add in your custom own check-in content

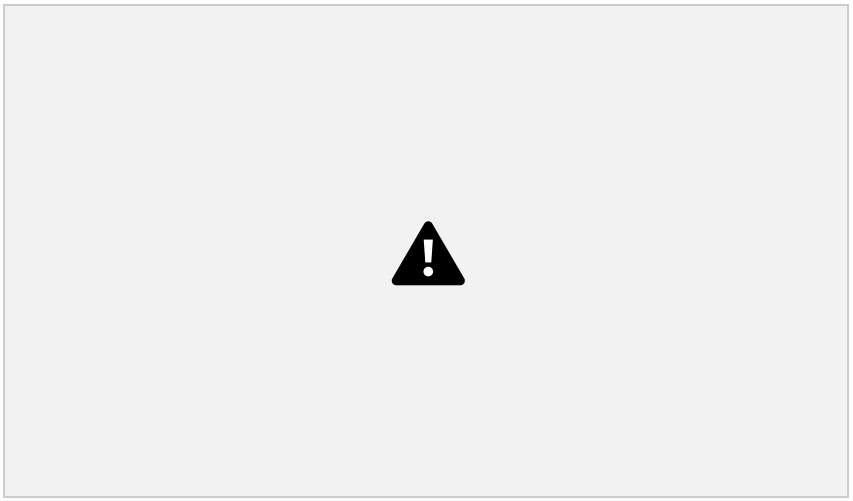
- Use MTSS tools to plan and track the actions taken in response to check-ins



Playbook provides educators **500+ high-quality interventions and strategies** for students. It's designed based on educator feedback and user testing to ensure the process of learning about how to deliver research-based intervention strategies is efficient and easy.







Narrow your focus by using Playbook's **search bar and filters**. Educators can filter by tier, developmental stage, framework alignment, and more!

Curate your library of interventions and build educator capacity to approach behavioral supports through an asset-based lens.

Educators benefit from easy-to-follow instructions and resources to ensure interventions are carried out with fidelity.

- April 19th board meeting

Contract Executed

Perris UHSD provides Panorama access to data

Integration

Project Kickoff Call

Preview for District Leadership

Within 6-8 Weeks After Sign-by Date: **Early July**

Within 8 Weeks After Sign-by Date: **Early July**

Initial Platform Launch

Training and Professional Development
Estimated sign-by date:

April 20th

Week of sign-by date:
Late April

Within 2 Weeks After Sign-by Date: **Late April/Early May**

Within 6-8 Weeks After Receiving Access:
Early July

After Platform Launch
Summer 2023

- Panorama and Perris UHSD finalize project scope, complete procurement processes, and both parties sign service order agreement

- Panorama and Perris UHSD come together for team introductions and initial project planning (data integration, communication plans)

- Perris UHSD technical team will provide Panorama with access to systems or SFTP files in order to meet integration timeline

- Panorama's technical team completes data integration and configuration
- Panorama will work with district technical team to troubleshoot any integration roadblocks

- Panorama previews the Student Success platform for leadership and project team, making adjustments and troubleshooting any feedback from team

- Initial users gain access to Panorama

- Panorama provides virtual training around platform navigation and action planning with user groups to ensure readiness by start of 2023-24 school year

Panorama Survey Platform	$52,500 Based on enrollment of up to 10,500 students
Panorama Student Success Platform	$76,125 Based on enrollment of up to 10,500 students
Professional Development	$3,000

Total Annual Price $131,625

Panorama Survey Platform

- Inclusive of Panorama Student Survey, Teacher and Staff Survey, and Family Survey (unlimited survey administration)
- Inclusive of Student Check-Ins
- Integration of **Infinite Campus** student rosters and standard filters, and academic, attendance, and behavior data into Student Success platform

Panorama Student Success Platform

- Integration of **CAASPP** and **College Board** assessments into Student Success platform (additional assessments may be requested throughout the contract term (integration timeline for additional assessments may vary)
- Intervention tracking and progress monitoring
- Access to platform for teachers, student support staff, school administrators, and district administrators

Training & Professional Development

- **2 virtual** professional development sessions
  - Virtual sessions, up to 2 hours
  - Access to On-Demand resources and training support (Panorama Playbook, Panorama Academy resource hub, Panorama Webinars)

Panorama Education is an independent, secure software platform that school districts use to first understand how each student is progressing in all aspects of their education–academics; life skills, behavior; social-emotional learning; college and career readiness–and then use that understanding to create and coordinate personalized support so that every student gets what they need to deserve to thrive.

Our products are grounded in research and evidence, used in 2,000 school districts in all 50 states, and built with a rigorous commitment to data security and privacy.
