2021-2022 School Accountability Report Card (Published During the 2022-2023 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2022-23 School Overview

Principal's Message

The California Military Institute (CMI) is now 20 years old and is meeting the challenge of providing a unique high quality educational experience for those who seek a safe, secure, motivating, and disciplined place to learn. Our cadets continue to excel academically, as is evidenced by their performance on Smarter Balanced Assessment Consortium (SBAC). 100% of seniors graduated on time. In addition, CMI provides tutoring, support classes, and online opportunities for students that seek broader "G" electives. CMI is fully accredited through the Western Association of Schools and Colleges (WASC). The school was granted a 6 year clear accreditation in March of 2015.

Our cadets continue to utilize the leadership training that is a hallmark of CMI. For example, CMI cadet leadership plans and executes the New Cadet Orientation, a three-day event held before the start of school and our cadet leaders also assist in training the new Battalions that are forming at other schools nearby. Each of these programs was planned by and conducted by the cadets at CMI – a true hands-on leadership experience. In addition to leadership at the site level, approximately ten CMI cadet leaders comprise the leadership staff for the 9th Brigade of the California Cadet Corps. Finally, our affiliation with the California Interscholastic Federation, Southern Section (CIF) gives every cadet an opportunity to participate in quality athletic competitions. We also offer a full slate of extracurricular activities for our 5th - 12th grade cadets, including 8th grade tackle football, intramural sports, tutoring, drill, and marksmanship programs. CMI cadets give back to their community through events, parades, and other activities and were awarded the Unit Community Service Award through the California Cadet Corps. Cadets are encouraged to learn from their service and to value the positive effects of service to others. In the fall of 2022 over 20 CMI cadets received CERT training and certification through the California National Guard/Homeland Security. These cadets respond to all emergency drills, most notably the Great California Shakeout. Our 5th and 6th grade program continues to be extremely successful. The demand for enrollment at CMI regularly exceeds the available number of seats. Consequently, waiting lists for new cadets are an annual occurrence and CMI has initiated a lottery system to ensure fairness for new applicants. We were able to add AVID 6,7,8,9 & 10 to our master schedule this year, and it was "G" approved.

We are proud of our accomplishments and look forward with enthusiasm to continuing growth.

CPT (CMI) Dr. I. Nicholas Milosavljevic
Principal

2022-23 School Overview

Mission Statement

CMI Mission Statement

The Mission of the California Military Institute is to educate, train, and inspire the Corps of Cadets so that each cadet becomes a recognized leader of character dedicated to the values of honor, courage, and commitment and is prepared for a career of professional excellence and service to the community and Country.

PUHSD Mission Statement

The mission of the Perris Union High School District is to provide quality educational programs and meaningful opportunities which encompass the intellectual, social, emotional, and physical aspects of all students within the district and which will enable them to become productive members of society.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

2021-22 data was not included as part of the initial release of data on 1/13/23. The CDE has indicated that the data will be available after the 2/1/23 SARC deadline. The data will be populated when it is published by the CDE.

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

2022-23 Quality, Currency, Availability of Textbooks and Other Instructional Materials

All textbooks used in the core curriculum at California Military Institute are aligned to the California Common Core Standards and Frameworks. Standards-based instructional materials are approved by the district's Board of Trustees. The district follows the State Board of Education's six-year adoption cycle for core content materials and the eight-year cycle for textbook adoptions in foreign language, visual and performing arts, and health.

On September 21, 2022, the Perris Union High School District's Board of Trustees held a public hearing to certify the extent to which textbooks and instructional materials have been provided to students. The Board of Trustees adopted Resolution No. 5:11-12 which certifies as required by Education Code §60119 (1) that textbooks and instructional materials were provided to all students, including English learners, in the district to the extent that each pupil has a textbook or instructional materials, or both, to use in class and to take home, (2) sufficient textbooks and instructional materials were provided to each student, including English learners, that are aligned to the academic content standards and consistent with the cycles and content of the curriculum frameworks in math, science, history-social science, and English/language arts, (3) sufficient textbooks or instructional materials were provided to each pupil enrolled in foreign language or health classes, and (4) sufficient laboratory science equipment was available for science laboratory classes offered in grades 9-12 inclusive.

In addition to core subject areas, districts are required to disclose in their SARCs the sufficiency of instructional materials used for their visual/performing arts curricula. During the 2021-22 school year, Perris Union High School District provided each student, including English learners, enrolled in a visual/performing arts class with a textbook or instructional materials to use in class and to take home. These materials complied with the state's content standards and curriculum frameworks.

School Facility Conditions and Planned Improvements

The district takes great efforts to ensure that all schools are clean, safe, and functional through proper facilities maintenance and campus supervision. California Military Institute's original facilities were built in 1960; ongoing maintenance and campus improvements ensure facilities remain up to date and provide adequate space for students and staff. District maintenance and site custodial staff ensure that the repairs necessary to keep the school in good condition are completed in a timely manner. A work order process is used by school and district staff to communicate non-routine maintenance requests. Emergency repairs are given the highest priority. In the last 12 months, the following improvements have been completed:

Every morning before school begins, the day custodian and campus safety officer inspect facilities for safety hazards or other conditions that need attention prior to students and staff entering school grounds. One day custodian and two evening custodians are assigned to California Military Institute. The day custodian is responsible for:

- Classroom cleaning
- Lunch area setup/cleanup
- Office area cleaning
- Restroom cleaning
- Trash removal

Restrooms are checked frequently throughout the day for cleanliness and subsequently cleaned as needed. The evening custodians are responsible for:

- Classroom cleaning
- Common use area cleaning
- General use areas
- Office area cleaning
- Restroom cleaning
- Locker room cleaning

The principal communicates with custodial staff daily concerning maintenance and school safety issues.

Facilities construction / improvement and maintenance projects:

The California Military Institute campus has had a number of facilities improvement projects. These include the addition of a new gymnasium building. This new building includes a full size sports floor that is set up for basketball and volleyball. The building includes a sports trainers facility, exercise room, boys and girls locker rooms and a full ASB classroom. Other improvements on the campus include the addition of artificial turf in different areas of the campus along with the relocation of 7 portables to a more central location on the campus. Electrical, plumbing and HVAC upgrade projects were also completed on the campus.

Ongoing maintenance of campus facilities, such as: concrete patching, maintenance painting, asphalt repair, electrical repair, and plumbing repairs.

Facilities Inspection

The district's maintenance department inspects California Military Institute on an annual basis in accordance with Education Code §17592.72(c)(1). California Military Institute uses a school site inspection survey to identify unsafe or hazardous conditions and facility improvement needs. The most recent school inspection took place on 11/25/2019. No emergency repairs were needed and no unsafe conditions were found. During fiscal year 2020-21, all restrooms were fully functional and available for student use at the time of the school inspection.

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22

2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2021-22 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

2021-22 Career Technical Education Programs

Students of California Military Institute have access to CTE courses on-campus and off-campus through the Perris High School as well as alternative locations through city partnerships. For the 2019-2020 school year, CMI cadets can participate in additional elective and CTE offerings through online courses with Edmentum.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2022-23 Opportunities for Parental Involvement

Parents are encouraged to get involved in their child's learning environment either by volunteering in the classroom, participating in a decision-making group, or simply attending school events. CMI has retained the services of a full-time bilingual Parent Liaison who coordinates all the parent volunteer activities, events and programs. Parents stay informed on upcoming events and school activities through our email, phone calls, social media pages, letters home, Peachjar, parent conferences, progress reports, the school marquee, school website, Blackboard (automated telephone messaging system), and emails to parents. Contact the assistant principal at (951) 443-2731 for more information on how to become involved in your child's learning environment. Parents can access the student database through Infinite Campus Parent Portal and teacher websites such as Canvas and Google Classroom.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

Suspensions	0.92	4.43	2.45
Expulsions	0.00	0.20	0.05

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

2022-23 School Safety Plan

The Comprehensive School Site Safety Plan was developed for California Military Institute in collaboration with local agencies and the district office to fulfill Senate Bill 187 requirements. Components of this plan include child abuse reporting procedures, teacher notification of dangerous pupil procedures, disaster response procedures, procedures for safe arrival and departure from school, sexual harassment policy, and dress code policy. The school's most recent school safety plan was reviewed, updated, and discussed with school staff in Fall 2021.

2021-22 Types of Services Funded

Available funding for programs and services that support student access & success include:

- Local Control Funding Formula (LCFF)
- Title I
- Title III
- Title X, McKinney-Vento Homeless Assistance

Programs and services available to students:

- Advancement via Individual Determination (AVID)
- Before & After School tutoring
- Co-Curricular and Extra curricular activities for students that increase school climate and connectedness
- Credit Recovery
- Dual Enrollment
- Student Leadership
- Summer School

CMI is funded through ADA (Average Daily Attendance) and, in addition, receives categorical funds in the form of a block grants. CMI provides a comprehensive course of study with an emphasis on college/university preparation. Through our general fund money, we support an active extra-curricular program which includes tutoring, athletics, clubs, military drill, and marksmanship. CMI is a Golden Ribbon school.

Professional Development

All training and curriculum development activities at the California Military Institute revolve around the California Common Core Content Standards and Frameworks and the implementation of the Common Core State Standards. During the 2021-2022 school year, the California Military Institute held staff development sessions devoted to:

- Implementation of Professional Learning Communities (PLC's)
- Focus and development of Common Formative Assessments.
- Project Lead the Way (PTLW)

Decisions concerning the selection of staff development activities are performed by all staff members using tools such as teacher input and data analysis to determine the areas in which additional teacher training may enhance classroom instruction and increase student achievement levels. The California Military Institute supports ongoing professional growth throughout the year on late start days. Teachers meet in both grade-level and department-level teams to conduct data analysis to identify areas of need. Teaching staff are provided the opportunity to participate in district-sponsored staff development workshops or training sessions as 1) a supplement to site-based staff development, 2) for reinforcement of or follow-up on previous training, or 3) follow-up training for newly implemented programs/curricula.

Counseling & Support Staff

The California Military Institute employs professional, highly qualified staff that provide additional services and support centered on the whole student academically, physically, and mentally. The Counseling and Support Services table in this report illustrates the availability of non-instructional support staff to California Military Institute's students. Full-time equivalent (FTE) is a standard measurement used to identify an employee's regular work load on a weekly basis. For example, an FTE of 1.0 designates a full-time position and the employee is on campus and available all day every day of the week; an FTE of 0.5 indicates that the staff member is available and on campus a portion (50%) of the week.

The California Military Institute offers support to new and veteran teachers through peer coaching and mentoring. Substitute teachers are invited to participate in designated staff development activities. All staff are encouraged to attend professional workshops and conferences. Classified support staff receive job-related training from department supervisors and district representatives.
