PREFACE

In accordance with Education Code 32280-32288 and California Education Code Board Policy and Administrative Regulations 0450(a)(b), Comprehensive School Safety Plans (CSSP) are updated annually by March 1st.

NOTE: Some components of the Comprehensive School Safety Plan may include proprietary or confidential information that shall not be released to the general public including personal contact information for students or staff members, tactical response procedures or strategies, building infrastructure or asset information, sensitive emergency contact information, detailed security procedures for campus crisis response and campus vulnerability assessment information.

In accordance with Department of Homeland Security Management Directive 11042.1, the following items will be designated “For Official Use Only”, reviewed only in a closed session of the Board and released only for official safety assurance or emergency response use:

Any appendices containing detailed emergency response information that, if disclosed, would undermine plans or procedures designed to protect students from harm by revealing safety strategies such as but not limited to critical communications systems, detailed response procedures, emergency facilities (i.e., command post, staging areas, etc), and supplies storage.

Copies of the Comprehensive School Site Safety Plans are kept on file at the respective school site, the District office, and on a secure server. School staff and responders have access to the Plan through hard copy and electronic formats.

This Plan is available, by appointment, for public inspection during regular business hours.

No portion of this Plan may be copied, redistributed or made available, in hard copy, digital format or otherwise, without the expressed written consent of the District, and in compliance with any copyright laws that may apply to the materials contained within.

SECTION 1

OVERVIEW

Liberty High School is governed by the policies and procedures of the Perris Union High School District, and participates in safety initiatives that are consistent throughout the District. As such, there are many references to the District made throughout this document.

The District has an obligation to provide a safe and secure environment for all students and staff. Therefore, it is necessary to have plans that, to the maximum extent possible, place the District and its schools in a state of preparedness.

In addition to District policies, procedures, emergency protocols, and safety initiatives; site-specific procedures and resources are in place to address the unique needs of Liberty High School.!

Safety encompasses several overlapping knowledge-specific components and is impacted by numerous variables. Therefore, the Comprehensive School Safety Plan is the compilation of several documents, topic-specific plans, policies, and programs that provide the District and its schools guidance in fulfilling their responsibility of providing a safe and caring educational environment.

The Plan strives to create a culture of safety for the District and its schools, where all stakeholders – students, staff, administration, parents, first responders, community partners, and government departments - are involved and committed to promoting a safe and caring school environment.

The Plan, along with all the supplemental information and documents referenced, provide to the extent possible, a means to prevent or minimize (mitigation strategies), prepare for, respond to and recover from situations that threaten or may threaten the lives and/or safety of students and staff, and District property.

APPENDIX A.1

Staff training is essential to a school being able to execute its safety plan effectively. Training must extend beyond awareness and basic theory, and provide staff with opportunities to hone their skills - both physical and decision-making skills - through practical application and experiential learning.

It is mandatory for all staff to participate in school safety plan training.

Training is provided to staff through a variety of methods, including the following:

- In Person Group
- Online
- Specialty Workshops
- Safety Presentation
- Emergency
- District Wide

During the reporting period, staff completed or participated in the following courses:

Course Completion
 Period 7/1/22 - 6/30/23

VISION STATEMENT

It is the vision of Liberty High School to enable all students to acquire the knowledge, learn the skills, and develop the attitudes necessary for them to realize their full potential and to become responsible citizens and lifelong learners who can meet the challenges of a changing world.

Mission Statement

The safety mission of Liberty High School is to create and maintain a safe and secure educational climate for all students and staff members, through the protection of life and property; the resolution of conflict and the proactive reduction of opportunities for the commission of a crime on all district property.

APPENDIX B.1

Liberty High School adheres to the PUHSD policy and procedures in how data plays a critical role in helping schools recognize trends, and pinpoint issues affecting school safety. By monitoring these trends, schools are better equipped to make policy and programming decisions, collaborate with other agencies and professionals, and direct resources to specific projects that enhance safety.

Establishing reliable indicators of the current state of school crime and safety and regularly updating and monitoring these indicators are important in ensuring the safety of our students.

The data sources listed below were used to assess the status of school crime, along with other safety-related issues at the school and school-related functions. This data was released to the School Safety Planning Committee as it became available.

Emergency Events

Emergency events will be monitored, and will be charted in upcoming years.

Student Injuries

Student injury data will be monitored and charted in upcoming years.

Property Damage

Property damage data will be monitored and charted in upcoming years.

Student Inappropriate Behavior

The following chart reflects the number of student incidents reported to or by the school over the past year that relate to inappropriate behavior by a student.

Liberty High School students are reminded about our HERD philosophy. They are Honorable, Exemplary, Respectful, and Determined.

ASSESSMENT

Schools have limited resources to gather and translate data into evidence-based school improvement strategies, the data gathered from the noted sources is still useful. The data provides insight into the root causes of incidents, areas of success within the school and areas that need improvement.

Local data becomes substantially more valuable as the school engages in ongoing monitoring; enabling the school to take corrective action before a few incidents evolve into a trend.

The validity of conclusions drawn from this data is dependent on the completeness and accuracy of data submitted by students, staff and other reporters. Of the data gathered, received and reviewed, the following conclusions merit highlighting.

HIGHLIGHTS

- AP testing
- CELDT
- SBAC

AREAS OF PRIDE AND STRENGTH

- EL students moving towards Reclassification based on Lexile scores on reading test

AREAS WE WISH TO IMPROVE

- Continue helping EL students Reclassify by passing CELDT and

Prevention and Reporting

APPENDIX B.2

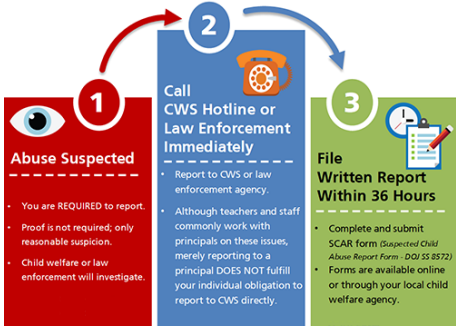

In accordance with State Law, District employees are obligated to report all known or suspected incidents of child abuse and neglect.

As such, school staff actively monitor the safety and welfare of students on a continual basis.

Reporting must be made by the individual suspecting or observing the abuse; it cannot be delegated to another individual or a supervisor.

As outlined in (Penal Code 11165.7), mandated reporters include but are not limited to

- teacher's aides or assistants;
- classified employees;
- certificated pupil personnel employees;
- administrators of a licensed daycare;
- employees of a licensed daycare;
- Head Start teachers;
- district police or security officers; and
- administrators, presenters, or counselors of a child abuse prevention program.

Staff must annually take Mandated Reporter Training. New hires are required to take the training within six weeks of their employment start date. In the case of staff returning after the summer break, the training must be completed within six weeks of the start of the new school year.

The training course is made available to each staff member via online training or a group session conducted by their supervisor. Staff are required to complete and pass a post-test to verify they understood the material.

Any known or suspected instances of child abuse must be reported by phone, immediately or as soon as practically possible, to one of the designated Child Protective Agencies.

Following the phone report, a written report must be sent within 36 hours of receiving the information concerning the incident. A copy of the BCIA 8572 SUSPECTED CHILD ABUSE REPORT form used to report suspected child abuse can be found in the Appendix.

Through training, staff are instructed to follow the steps outlined below to report known or suspected abuse.

1. Complete the SUSPECTED CHILD ABUSE REPORT form.
2. Call Children and Family Services immediately to report verbally.
3. Forward the completed Child Abuse Report form within 36 hours.

4. Do not pass on the responsibility to report. However, you can/should consult with your supervisor.

If you have a reasonable suspicion, you have a duty to check (reasonable suspicion creates a duty). If in doubt, file. The burden of proof is not with the reporter. Children and Family Services will do the investigation. School staff is not liable for defamation if done in the course and scope of your employment.

Consequences of Failing to Report

- A person who fails to make a required report is guilty of a misdemeanor punishable by up to six months in jail and/or up to a \$1,000 fine (California Penal Code Section 11166[c]).

Child Abuse and Neglect Reporting Phone Number: 1-800-442-4918

This number is posted in the staff room at the school.

- Mandated reporters must immediately report abuse to the Child Abuse Hotline.
- Mandated reporters are required to submit a written follow-up report within 36 hours.

Employees, as mandated reports, shall not investigate any suspected incidents but rather shall fully cooperate with agencies responsible for reporting, investigating, and prosecuting cases of child abuse and neglect.

DISASTER PROCEDURES

ED Code Reference

EC 32282(a)[2](B); GC 8607;
GC 3100

The District's disaster procedures build on foundational principles that impact many operational functions of the District and each of its schools.

Board Policy Reference

AR 3516

APPENDIX B.4

The procedures aim to strengthen the District's and the schools' ability to assess risks and to prevent/mitigate, prepare for, respond to, and recover from disasters, emergencies, and crises.

The Plan is organized into annexes. Each annex may be independently updated or revised to ensure the Plan complies with legislative requirements, aligns with industry standards, incorporates current best practices, and addresses issues identified in After-Action Reports.

Major annexes of the District Safety Plan are summarized below.

Site-specific procedures are used to address the unique needs of the school.

The District has a robust Emergency Response Plan (ERP) that aligns with the Standardized Emergency Management System (SEMS) as detailed in the California Emergency Services Act 8607 and the supporting California Code of Regulations.

The ERP uses a core set of concepts, principles, procedures, processes, standards, and terminology to create a common operating picture, promote mutual goals and responsibilities, and advance a more efficient and effective response.

The ERP addresses the four phases of emergency management: mitigation, preparedness, response, and recovery. It uses NFPA 1600 and the Incident Command System as its framework and incorporates best practices for school emergency plans.

Site-specific procedures address risks, hazards, and other emerging issues identified through ongoing reporting, site assessments, annual reviews, and After Action Reports.

Overview

The Overview establishes the lexicon to define and clarify the terminology used throughout the various components of the Plan. It is regularly updated to ensure the currency and completeness of the Plan.

This section describes the purpose, goal, scope, access control, partnerships, organizational structure, legal considerations, approval process, and requirements for Plan updates, training and testing.

Emergency Preparedness and Response

Standardized emergency protocols and procedures address hazard assessments and mitigation, emergency preparedness and response, and initial recovery activities.

The District uses the Hour-Zero School Emergency Program as the base for its Emergency Preparedness and Response Program (referred to as the District Emergency Response Plan). The program is documented and maintained on HZ Online and is accessible to authorized users via secure web access.

The Plan utilizes an all-hazard approach. As such, there are two protocol categories. Those include functional protocols and incident-specific protocols and include the protocols listed in the tables below.

FUNCTIONAL PROTOCOLS

Functional Protocols		
On Alert	Lock-Down	Evacuation
Hold and Secure	Shelter In Place	Drop-Cover-Hold
Active Shooter	All Clear

Earthquake Preparedness

According to the U.S. Geological Survey (USGS), schools in California have a high probability of experiencing an earthquake. As such, the school’s emergency response includes specific protocols to follow should an earthquake strike.

To ensure these protocols are well-understood, schools participate in earthquake drills at regular intervals throughout the year. (See Drill and Training chart below).

All schools in the district, along with the District Office, annually participate in the Great Shakeout. The exercise allows students and staff to practice, on a larger scale, what action they need to take to stay safe both during and immediately following a quake.

The school's earthquake preparedness activities also include strategies to address the following:

- Lessening the potential physical impact of an earthquake
- Encouraging personal preparedness at home
- Identifying and acquiring needed resources

- Structural and non-structural mitigation strategies
- Extended student care and lodging requirements

These activities align with The Field Act (Garrison Act and Riley Act), and The Katz Act.

Additional California Earthquake Hazards Mitigation Legislation can be referenced at <https://www.wsspc.org/public-policy/legislation/california/>

Active Shooter Preparedness

"While an attack by an armed assailant on school grounds is possible—and can have significant psychological and educational impact if it happens—it is not as probable as other types of crisis events." - National Association of School Psychologists

Yet an active shooter situation is one of the most feared scenarios of a school and can be devastating for the entire community.

The school's emergency plan contains protocols to address the potential risk. The active shooter response protocols are considered part of the school's Tactical Plan and are not made public for security reasons.

All schools in the District are required to conduct age-appropriate drills for an incident of this nature. When such drills are held, the school takes into consideration the developmental maturity, psychological history, prior traumatic experiences, personality, and special needs of participants. For that reason, the type of activities included in these drills and/or scenarios enacted will vary from school-to-school within the District.

The goal of these drills is to empower participants and save lives and prepare professionals and staff for this role and responsibility.

Additionally, all staff are required to complete a course on Active Shooter awareness and preparedness, developed in partnership with Riverside County Sheriff's Department.

Student Release

- A Parent-Child Reunification Area will be established. Parents will be notified at the time of the emergency of the Reunion Area's location. The location may not be at the school — the location will depend on the specifics of the emergency.
- Parents/Guardians will be required to fill out a Student Release Request Form. This ensures all students are accounted for at all times and students are only released to authorized individuals.
- Students will only be released to an individual designated as legal guardian or emergency contact on the student's Emergency Card, which is completed at time of school registration. Please be sure to keep this information current with your school, as the school will only release a child to someone listed as an Emergency Contact — there will be no exceptions.
- Valid identification is required to pick up your child. This is required to protect your child from any unauthorized individuals attempting to pick up students. Even if school personnel know you, you must still present I.D. as the school may be receiving assistance from other schools or outside agencies.
- Parents/Guardians will be required to sign for the release of your child. This is extremely important, as it ensures your child, along with other students, is accounted for at all times. Please do not just take your child from the school or evacuation center without signing for his/her release.

- Once a parent/guardian has been reunited with their child, they will be asked to please leave the area immediately.
- If a parent/guardian is unable to pick up their child, the child will be kept at the Parent-Child Reunification Center until alternate arrangements can be made. The child will be supervised by a member of the Release Team at all times.

Crisis Communications

Communications is a critical component of the District's overall response efforts. As such, a Crisis Communications Plan is part of the District Emergency Response Plan. The Crisis Communications Plan addresses both District and school communications processes during and following an emergency or crisis.

The processes follow, as close as practical, the procedures listed below.

The District endeavors to keep parents, and other affected stakeholders informed of emergency situations involving their child's school in a time-sensitive manner, as is safe to do so. Response activities directly related to keeping students and staff safe always take priority over any other activity, including parent notifications during the initial response phase. This is to ensure available resources are first directed to life safety activities.

A variety of communications methods are used by the District during an emergency. The methods used during a particular incident are based on safety considerations, delivery speed/time requirements, reliability of mode and availability of infrastructure/technology. Redundant/multiple methods are in place to help attain greater reach of messages.

Communications during an emergency follow the processes identified in the Crisis Notification Network chart below. The incident's classification, i.e., Level 1, 2 or 3, serves as a guide to which positions/persons should be notified and the prioritization of the notifications. In general, the number of people notified will increase as an incident expands or intensifies in severity.

- Upon notification or observation of an emergency - always notify those whose lives may be threatened by the incident first, i.e., if there is a volatile intruder or trespasser in the school—announce/call out Lock-Down at the school first; then proceed with further notifications.
- Call 9-1-1. If first responder assistance is needed, call 9-1-1. If able to do this simultaneously with notifying those whose lives may be threatened, then do so. (E.g. Activate lock-down at the school via HZ Alert, while calling 9-1-1)
- Level 1 Notification. Schools will advise the District Administrative Command Team (ACT) of the incident within 24 hours of the incident occurring. If media or external agencies become involved, advise ACT at the time of the incident.
- Level 2 Notification. Schools are required to notify ACT at the time of the incident.
- Level 3 Notification. Schools are required to notify ACT at the time of the incident.
- Parent notifications shall take priority over any other external (non-responder) notifications.

Crisis Intervention

The District Crisis Intervention Plan addresses matters pertaining to early intervention activities, e.g., student behaviors that pose a potential risk to other students, staff and members of the community.

The details of Crisis Intervention protocols and procedures are contained within the Crisis

Intervention and Crisis Response Plans. From time to time these Plans may change to reflect evidence-based findings, best practices and emerging strategies.

The Crisis Intervention Plan includes strategies for the following items.

- Early Intervention and Prevention - anti-bullying programs, peer mediation programs, social skills training, self-esteem building, conflict resolution, etc.
- Threat Assessment Protocol - Direct/Indirect/Veiled/Conditional
- Activation Processes - Imminent Threat/Moderate Threat/Low Threat
- Responsible Reporting and Fair Notice
- Guidelines for re-entry into School
- Loss and Bereavement
- Grief Counseling
- Anxiety and Post-Traumatic Stress Disorder
- Anniversaries and Reoccurring Events

Crisis Response

A crisis is a traumatic event that seriously disrupts a person's coping and problem-solving abilities. It can present a drastic and, sometimes tragic, change in the school environment. The change may create a sense of helplessness, hopelessness, and vulnerability combined with a loss of safety.

The District's Crisis Response Plan focuses on the psychological impact of school crises; assisting students and staff, who have been emotionally or psychologically affected by the critical incident or emergency event.

The intent of the Plan is to address the trauma in such a way as to prevent or reduce long-term negative impacts.

The response process is typically broken down into three stages.

Triage: Reaffirms physical health and ensures the perception of safety.

Evaluation: Crisis Response team constantly evaluates victims' and responders' levels of psychological risk and appropriate interventions or self-care are administered.

Response Interventions: Appropriate interventions are used for the level of risk for psychological trauma.

Intervention strategies may include, but are not limited to, the following activities:

- Providing individual and group counseling
- Advocating for student safety by recommending school personnel put consistent procedures, communication, and policies in place
- Providing interventions for students at risk of dropping out or harming self or others
- Offering peer mediation training, conflict resolution programs, and anti-bullying programs
- Supporting student-initiated programs
- Providing family, faculty and staff education programs
- Facilitating open communication between students and caring adults
- Defusing critical incidents and providing related stress debriefing
- Participating in SERT planning and practices, to help ensure students and staff are able to process/understand crisis response drills
- Promoting trauma-informed practices
- Advocating for restorative justice programs
- Partnering with community resources

Occupational Health and Safety

California school districts face several occupational safety and health issues that affect school employees, and by extension, these issues affect the schools where the employees work and/or support.

The District has a comprehensive program to address these issues, help maintain an effective injury and illness prevention program, and promote workplace health and safety. The program includes strategies to address a broad range of issues, such as, but not limited to:

- Indoor Air Quality (IAQ)
- AHERA Management Plan
- Hazard Communication
- Chemical Hygiene Plan
- COVID Prevention Procedures
- Ergonomics Program
- Bloodborne Pathogens Exposure Control Plan
- Heat Illness Prevention
- Injury Illness Prevention Program (IIPP)
- Utility Vehicle Safety Policy and Procedures
- Lockout Tagout Plan
- Fire Prevention Plan

The District's program addresses the required elements of an effective health and safety program as required of California school districts under the Injury and Illness Prevention Program (IIPP) standard. (Title 8: California Code of Regulations, Sections 1509 and 3202)

Risk Management

The District has a robust risk management program that includes activities to identify, analyze, assess, control, minimize, or eliminate unacceptable risks affecting the school.

The program helps the school manage and mitigate risks that impact the operations, ranging from ongoing risks of day-to-day activities at the schools, to risks for one-off field-trips, events and projects, to athletic events, to overseas travel.

School staff are responsible for following District risk management policies, and ensuring risk management processes are integrated into all planning and implementation activities.

These risk management activities, when properly executed, help protect student and staff wellbeing, along with reducing disruption to academic programming, lost time, and financial stress on the District.

Business Continuity (Continuity of Operations)

The District Business Continuity Plan addresses the essential services – both educational and business processes – needed to ensure the District can continue to function throughout disruptive events such as an emergency, a disaster, or a crisis. An event can range in severity from a localized short-term situation to a prolonged global event such as a pandemic to a permanent loss of a facility.

As a critical element of maintaining the continuity of services, there needs to be adequate redundancy of facilities, people, communications, documentation, training, and services.

The Business Continuity program includes an ongoing process of risk assessment and management, along with maintaining adequate redundancy of supplies, facilities, people, communications, and documentation.

The Business Continuity Plan is different from other components of the District's disaster procedures, which focuses on the well-being of students and staff; keeping them safe and attending to their physical and psychological needs during and following an event.

The District is committed to ensuring schools have the capabilities to:

- Attend to student and staff safety and well-being,
- Addresses the needs of students who participate in meal programs,
- Continue essential critical activities in the event of a disruption
- Ensuring sufficient capacity to sustain critical activities, and
- Recover from disruptions and return to “normal” delivery of educational services.

Disaster Recovery (Information Technology)

Disaster recovery activities focus on maintaining a reliable Information Technology infrastructure to keep the District operational during unforeseen disasters or emergencies. This includes recovering critical technology platforms and telecommunications infrastructure which interrupt information systems and/or business operations, along with safeguarding student, staff and district information against data breaches.

SEMS/NIMS Overview

Effective emergency response requires systematic, repeatable processes; processes that are well-organized and carefully coordinated.

The Standardized Emergency Management System (SEMS) is the cornerstone of California's emergency response system. It provides the fundamental structure for the response phase of emergency management.

Additionally, the National Incident Management System (NIMS) further expands on the principles of SEMS and addresses multi-jurisdictional on a national basis.

Applying SEMS and NIMS to the District's emergency plan helps unify all elements of the response - both internal and external - into a single integrated system and standardizes key elements.

The Petris Bill (California Government Code Section 8607) and Homeland Security Presidential Directive HSPD-5 require California's schools to use the SEMS and NIMS in planning for and responding to school emergencies and disasters.

The School Emergency Response Team (SERT) leads the on-site response until first responders arrive (if needed). Once emergency agencies have arrived, the command transitions to "Unified Command," where representatives from the respective agencies, including the school Incident Commander, collaboratively plan, delegate and carry out response activities.

SERT assignments are based on suitability, availability, and completed training, and may not align with the organization chart of the school.

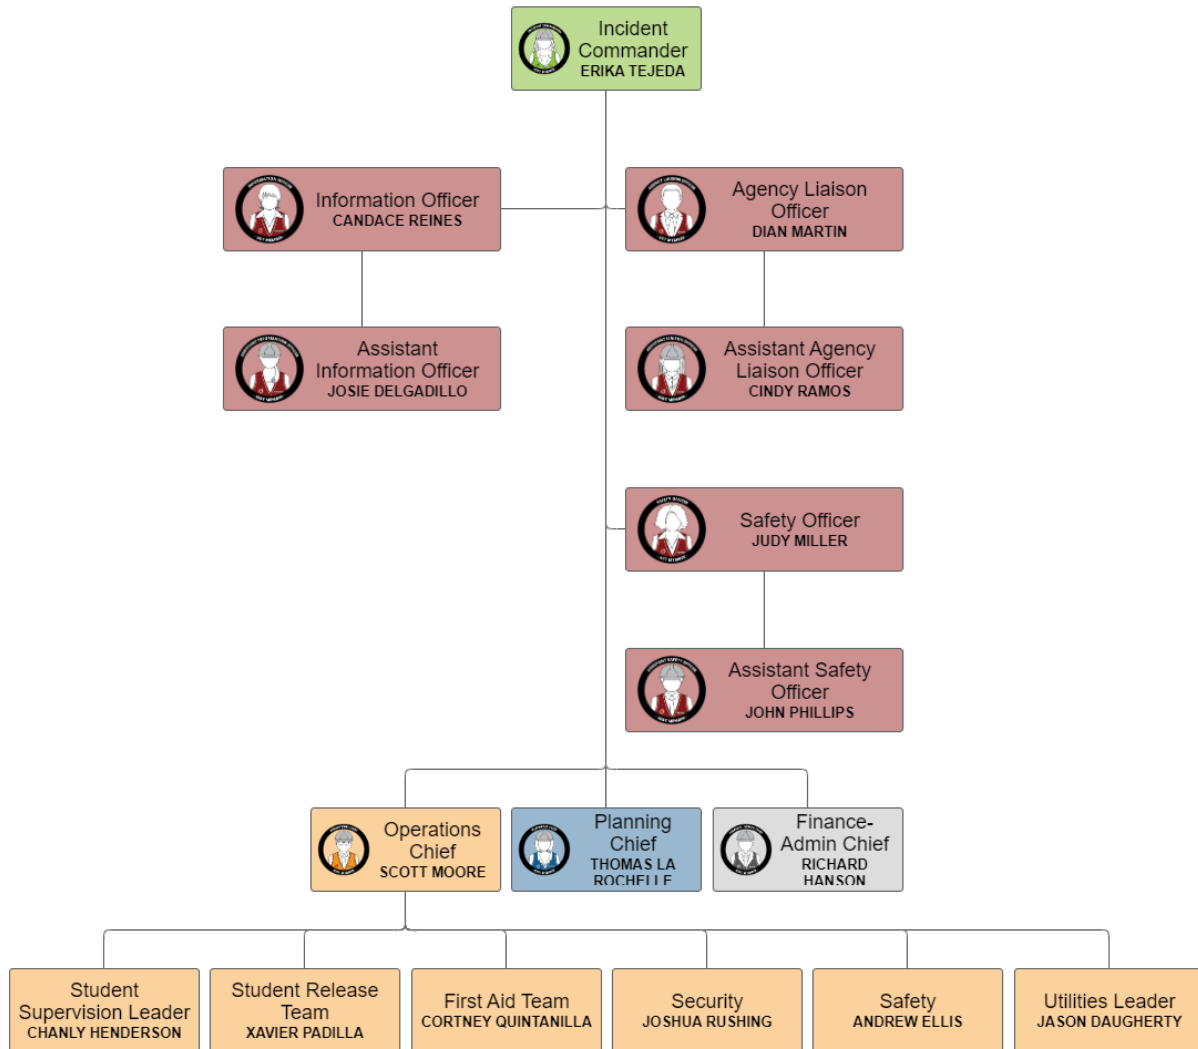

In accordance with California Government Code Section 3100, all school employees are considered disaster service workers when:

- A local emergency has been proclaimed
- A state emergency has been proclaimed
- A federal disaster declaration has been made

No public school employee may leave the school site during a declared emergency until formally released.

SCHOOL EMERGENCY RESPONSE TEAM (SERT)

Site(s): Liberty High School

ADMINISTRATIVE COMMAND TEAM (ACT)/EOC

The Administrative Command Team (ACT) is responsible for four primary functions at the District-level.

1. Support the School/Site Emergency Response Teams (SERT)
2. Coordinate response activities at the District-level
3. Provide Command and General staff for District EOC
4. Develop and update district emergency policies and procedures

These responsibilities encompass a broad range of activities that occur beyond the scope of EOC operations, which help ensure the District's state of preparedness. Some of these activities include such things as managing Aid Agreements, liaising with external agencies and stakeholders, drafting policy and procedures for Board approval, initiating Risk Communications strategies, promoting and implementing mitigation strategies, overseeing recovery activities, ensuring the District and schools emergency plans are kept current, amongst other things.

District(s): Perris Union High School District

EMERGENCY DRILLS AND TRAINING

Training and testing are essential to the Plan. All District students and staff are required to participate in training as it relates to their roles and responsibilities.

Schools are responsible for conducting training with their staff; ensuring staff are fully acquainted with the School Emergency Response Plan and able to perform their assigned tasks. The Principal is responsible for scheduling the training throughout the school year.

A record of all training and drills is maintained HZ Online.

SAFETY ASSESSMENTS

The Plan addresses risks and threats identified through subject-specific assessments.

Assessments identify situations, hazards, or behaviors that can disrupt operations, cause casualties, damage a facility and/or property, or otherwise negatively affect students, staff, facilities and/or the District's reputation.

The Plan incorporates suitable assessment processes, including the assessment type and activation/review schedule. E.g., emergency plans incorporate an annual risk assessment; crisis intervention plans require an assessment process with timely intervention.

A change in condition(s), e.g., a natural disaster, an act of violence, system failure, etc., may also precipitate an update or review.

Due to the broad-reaching nature of the Plan, some terms may have different meanings across the various disciplines. The Plan attempts to attribute a distinct meaning to each term whenever possible.

The following is an example of the Safety Assessment (Audit) Process:

- Data and document collection and review: policies, procedures, incident reports, etc.
- Site Assessment: physical walk-through of site documenting a set of criteria
- Interviews of key personnel and stakeholders
- Drill Evaluation
- Communications processes review and testing
- Security processes review and testing
- Analysis: Observations, report, and recommendations

AID AGREEMENTS

In addition to forming partnerships with various organizations, the District has established formal aid agreements with external agencies to address any deficiencies in facilities, equipment, or personnel needed during emergency conditions.

The Emergency Operations Center (EOC) Director is responsible for negotiating and managing these aid agreements, subject to approval by the Superintendent.

The Incident Commander for each site annually reviews the agreements pertaining to their site (e.g., Evacuation Center Agreements), updates as required and rectifies deficiencies.

STRATEGIES TO ADDRESS NEEDS OF STUDENTS WITH DISABILITIES

The school will identify students, who may require special assistance or provisions in the event of an emergency at the school.

The strategies outlined below have generally been incorporated into the school's Emergency Response Plan to address the needs of these individuals. These strategies will vary depending on the circumstance and, as required, to meet specific student needs.

Impairment	Visual	Orthopedic	Auditory	Cognitive	Life-threatening Health Condition
Students	0	0	0	0	0

The following strategies have been incorporated into the schools' Emergency Response Plan to address the needs of these individuals. These strategies have been discussed with first responders as a part of the review process of the CSSP.

STRATEGY 1	Individualized emergency procedures have been incorporated into the student's IEP, discussed with the student's parent/guardian, and reviewed with the student's teacher and aide(s).
STRATEGY 2	To address the needs of students with visual impairments (low vision or blindness) the school has incorporated strobe lights and vibrating pagers to supplement audible alarms. Additionally, braille signage has been posted along the evacuation routes.
STRATEGY 3	To accommodate the needs of students with severe food allergies, the school stocks appropriate emergency food provisions. These provisions are for use in the event of catastrophic infrastructure failure resulting in the school having to shelter students for a maximum of 72 hours.
STRATEGY 4	To accommodate the needs of students with cognitive impairment, emergency protocol instructions are illustrated in pictograms and are included in the respective students' emergency kits.
STRATEGY 5	To accommodate the needs of students with autism, individualized emergency drills are scheduled and carried out with each student. These drills are in addition to school-wide drills.
STRATEGY 6	To accommodate the needs of students with life-threatening medical conditions, the student's teacher or designated aide will ensure the student's medication remain with the student during emergency procedures that move the child from their usual location.

Equipment and Supplies

The District has procured an inventory of emergency supplies for each site. Resources are managed by the individual site, with an inventory maintained on HZ Online. This includes:

- Classroom Emergency Kits
- Large Emergency Kits
- Incident Command Post Kits
- Emergency Response Kits

- Medical trauma kits
- Emergency Food Bars
- Automatic External Defibrillators
- Bleeding Control Paks
- Emergency Response Kits
- Compact Emergency Response Kits
- Evacu-Chairs

Risk and Hazard Assessments

The District engaged a safety consultant to prepare risk and hazard assessment reports for each site. The most current risk and/or hazard assessments can be found in the appendix.

5144.1: Suspension And Expulsion/Due Process

At Liberty High School staff, students and parents work together to create a positive school environment whereby our code of conduct requires everyone to be respectful and responsible.

The District has established policies and standards of behavior that aim to promote learning and protect the safety and well-being of all students and staff.

AR 5144.2

APPENDIX B.3

Everyone has a role to play in promoting healthy relationships and contributing to a school climate which helps to encourage appropriate student behavior.

The school strives to keep every child in school; allowing the student to spend more time engaged in learning and be better positioned to achieve academic success. However, if these policies and standards are violated, it may be necessary to suspend or expel a student from regular classroom instruction.

When inappropriate student behavior occurs, the school uses progressive discipline and interventions to promote positive student behavior. A range of options is considered to determine the most appropriate way to respond to each situation and help students learn from their choices. In some cases, a suspension or an expulsion may be necessary.

Truancy	0	--	4	0.36%	4	0.23%

The policies outline the expectations set out for students, along with the consequences of violating those expectations. These policies are made clear to all students, parents, and staff through several methods.

- Liberty High School informs students about the policy expectations by including them in the school handbook.
- They are also informed about this at school-wide assemblies and video announcements.

Suspension Authority:

- Classroom discipline procedures are the responsibility of the individual teacher. However, severe misbehavior including, but not limited to, fighting, openly defying adults, and possession of weapons or illegal drugs, will result in the student being sent immediately to the office where the principal or his/her designee will meet with the student.
- Further action may be required, such as detention, suspension, or expulsion, depending on the severity and circumstances. In these instances, parents will be notified either by phone, postal services, or email.
- Teachers can suspend for up to 2 days (on campus), but due to Liberty High School's block schedule, this equates to 1 block period from their class.
- Administrators can suspend for up to 5 days with or without a Pending Further Disciplinary Action (PFDA).
- Schools can suspend for up to 20 days a year.

To further address the suspension and expulsion rates at the school, the following strategies will be implemented in the upcoming school year.

These initiatives aim to support disciplinary practices that are non-discriminatory and that foster a safe and productive learning environment.

STRATEGY 2	MTSS Counselor
STRATEGY 3	Restorative Practices with Counselors

STRATEGY 4	Wellness checks
STRATEGY 5	Schoolwide drug presentations

APPENDIX B.6

In accordance with PUHSD procedures: notifications of students who have violated Education Code 48900 are now automated, and teachers get an electronic message regarding students.

PROCEDURES FOR TEACHER NOTIFICATION

1. First week of each semester the teacher will receive a list, from the school secretary, of students in their classes that are deemed to have violated or been suspected of violating one of the 48900 Education Codes.
2. The teacher will receive daily emails of students that have had schedule changes that come to their class that are deemed to have violated or have been suspected of violating one of the 48900 Education Codes.
3. The teacher will receive daily notification by email of students that have violated or who are reasonably suspected of violating Education Code 48900 that day.
4. The teacher will have access, through Infinite Campus, to a list of students in their classes that have violated or been suspected of violating Education Code 48900.

STRATEGY 1	Automatic daily behavioral report resolution notifications

APPENDIX B.7

Liberty High School adheres to the guidelines on sexual harassment set forth by the Perris Union High School District Board of Education. The Board of Education prohibits sexual harassment in the working environment of District employees or applicants by any person in any form. Sexual harassment of or by any employee is not tolerated.

The Board considers sexual harassment to be a major offense, which may result in disciplinary action or dismissal of the offending employee or suspension/expulsion of any offending student.

It is the policy of the Perris Union High School District that sexual harassment is unacceptable conduct in the workplace and is not tolerated. Prohibited sexual harassment includes, but is not limited to, unwelcome sexual advances, requests for sexual favors, or other verbal, visual, or physical conduct of a sexual nature made by someone from or in the work or education setting.

Sexual harassment guidelines apply to school personnel, as well as students.

All staff are required to participate or take training related to discrimination and harassment. Courses and training related to this topic are list in Section 1 - Staff Training.

SCHOOL-WIDE DRESS CODE

ED Code Reference

EC 32282(a)[2](F)

Board Policy Reference

AR 5132 – Dress & Grooming

APPENDIX B.2

The dress code is in effect during school hours as well as during school-sponsored activities. Liberty High School seeks to maintain a positive learning environment where mutual respect and high personal standards are established. Because of this, it is expected that clothing policies at Liberty High School will be followed by all students.

Students who come to school in clothing that is inappropriate can be assigned a disciplinary consequence and will be required to change into school-appropriate attire. If a student refuses to wear a loaned dress code violation item or if a parent cannot bring them a change they will be sent to On-Campus Detention for the remainder of the day.

The District has a dress code policy outlining standards for student dress and grooming. The school adheres to this policy.

The principal, staff, students, and parents/guardians at the school may establish reasonable dress and grooming regulations for times when students are engaged in extracurricular or other special school activities.

Coaches and teachers may impose more stringent dress requirements to accommodate the particular needs of certain sports and/or classes.

In addition to District policy, the school has a set Policy related to the type of sun-protective clothing that pupils are allowed to use outdoors, this includes:

- hats
- SPF protective clothing
- sunglasses
- other apparel needed due to a medical condition, and approved by the principal

Note - The dress code is not met if a student tries to cover their dress code violation with a sweater, vest, or another accessory piece of clothing.

All clothing and accessories must be school appropriate; shirts must be worn at all times.

The list below offers guidance on what apparel is NOT allowed at school or school activities.

UNACCEPTABLE APPAREL

- Clothing and accessories must not promote illegal substances, violence, alcohol, or sexually explicit material.
- Clothing and accessories must not discriminate against any religion, ethnic group, household income, or body type size.
- Clothing and accessories must be free of safety pins and spikes. Chains are not permitted, even when attached to a wallet or worn on clothing.
- All tops must have visible straps. No bandeaus, tube tops, plunging necklines, or strapless blouses or clothing. Bikini tops and bralettes are considered undergarments and should be concealed at all times.
- Tops must cover at least half of the midriff.
- Bottoms must fit waist-size appropriately and must completely cover the buttocks area, and must not be excessively baggy or show undergarments.
- Bandanas are not allowed at school.
- Shoes must be worn at all times. It is recommended that sandals have heel straps.
- Items that are classified as drug paraphernalia are not permitted to be worn as accessories or clothing.
- Any clothing, purse, backpack, notebook, jewelry, etc., displaying a hate symbol is strictly prohibited at school.
- Sunglasses may not be worn indoors (unless under a doctor's prescription).
- Any clothing that is attributed to a gang by the Riverside Sheriff's Department will be prohibited.

SAFE INGRESS AND EGRESS

ED Code Reference

EC 32282(a)[2](G)

Board Policy Reference

AR 3541 - Transportation Routes and Services

BP| AR 1250 Visitors/Outsiders

APPENDIX B.4

Many streets and roadways in California present safety challenges for students, parents, and staff while en route to or from school; often lacking features such as sidewalks, safe street crossings, separated bicycle lanes or multi-use paths.

Other issues, such as child predators, bullying and street violence also impact student and staff travel patterns.

As such, safe ingress and egress of students, staff, parents, and visitors as they travel to and from school each

day is a critical component of the school's safety plan.

Matters pertaining to safe ingress and egress involve many stakeholders – students, staff, parents, police, city planners, and school board members, to name a few.

The school recognizes the value of the diverse perspective of these stakeholders; and uses the 5E's (Education, Engagement, Enforcement, Engineering, Evaluation) to identify and address challenges, and to promote behavior that aids safe ingress and egress.

ARRIVAL / DEPARTURE PRACTICES

- Egress and Ingress to the campus have been effectively handled at Liberty High School. Both classified and certificated personnel have report times prior to student arrival.
- The regular school day at Liberty High School lasts from 8:30 a.m. to 3:30 p.m. The rear access gate is unlocked at approximately 2:05 p.m., and both the rear access gate and side access gates are locked again at 4:30 p.m. At this time, all ingress and egress to the campus must occur by means of the front gates located next to the administration building.
- All unauthorized persons entering the campus must sign in, provide identification and identify their purpose and destination. In addition, parents or guardians picking up students prior to the end of the school day must sign in and be authorized according to emergency card information.
- In the unlikely event that a student leaves our campus without permission, the parent or guardian is immediately contacted. If the parent or guardian is unavailable, law enforcement is contacted, and appropriate steps are taken to locate the child.
- If, for some reason, the office is notified that a student did not arrive home at the expected time, steps are taken to verify the following: Who last saw the child? | What mode of transportation was used? | What dismissal procedures did his or her classroom teacher follow?
- Once these questions are addressed, both parents and office staff follow up on the situation until the child is located, or the need for further intervention is determined.
- Absence from school breaks the continuity of learning, which may lead to frustration and acting out. According to state law, our students are required to attend school each day they are physically able. At Liberty High School, valid reasons for an absence from school follow California Education Code guidelines, Section 46010.
- Liberty High School requires all students to present their current physical ID to campus supervisors so it can be scanned.
- Staff members are always posted at the front and back gates of the school in the morning.

- Anyone who enters the school needs to provide identification.
- Students are not released unless they are properly signed out in the front office by their parents.
- Constant communication over the radio informing student drivers who are authorized to enter/leave campus.

STRATEGY 1	Enforcing ID policy for entrance
STRATEGY 2	School Resource Officer on campus
STRATEGY 3	Communication with the front office and campus supervisors regarding who enters and exits the campus

The ultimate goal of Liberty High School is to see students succeed – in school, in life, and in personal pursuits. While this goal may appear lofty, the school plays a major role in making a lasting difference in a child’s life. A contributing factor to achieving this goal is ensuring students have a safe and orderly environment in which to learn, because when safety is compromised – learning stops.

In addition to the strategies documented elsewhere in this Plan, the improvement initiatives documented below highlight specific goals that relate to the social and physical environments of the school, and provide a road map to how and when these goals will be achieved.

EC 32282(a)[2](l)

Board Policy Reference

AR 5144 - Discipline

APPENDIX B.5

Liberty High School provides an exemplary educational program for all students. Good teaching and an orderly environment set the stage for academic excellence. All students should be aware that their parents and teachers share the expectation of them to achieve to their highest potential, be on their best behavior while in school, in the cafeteria/MPR, on the playground, on their way to and from school or on the bus.

Campus jurisdiction also extends 1,000 feet from campus boundaries at all times, per California law.

CODE OF CONDUCT

1. All students are expected to conduct themselves in such a manner as to contribute to a productive learning environment.
2. Each individual's conduct on the campus and to and from school shall be orderly and in keeping with the rules and regulations of the school, the school district, and the laws of the state.
3. An educationally sound environment does not allow anyone to interfere with the teacher's right to teach and/or a student's right to learn.
4. It should be noted that a pupil may be suspended or recommended for expulsion for acts which are enumerated in Education Code Section 48900 and related to school activity or attendance which occur at anytime including, but not limited to, the following circumstances: a. While on school grounds or school transportation | b. While going to or coming from school | c. During the lunch period | d. During or while going to or coming from a school-sponsored activity.

CLASSROOM STANDARDS

1. The classroom teacher, under state law, is given the authority to act in the place of the parent/guardian during the time the student is under the teacher's direction.
2. To ensure suitable classroom management, teachers will utilize a variety of methods of controlling students' behavior. Strategies teachers may use include, but are not limited to:
3. Confer with students and explain the school behavior policy.
4. Take away privileges enjoyed by other students.
5. Assign special tasks which must be completed within a specified time.
6. Contact the parents/guardians so that concerted action can be taken to mutually correct the inappropriate behavior patterns of the student.
7. Give the student detention as authorized by state law (Education Code Section 44807.5).
8. Class suspension of a student for up to two class periods.
9. Refer a student to the school administration for correction and assistance.

SCHOOL RULES

1. School-Wide Rules
2. Bus Conduct and Responsibilities
3. Electronic Devices
4. Skateboards
5. Writing and Plagiarism
6. Cheating
7. Permanent Markers and Tagging
8. Gum Policy

TACTICAL RESPONSES

ED Code Reference

EC 32282(a)[2](J)

Board Policy Reference

AR 3516

Tactical response strategies have been developed in collaboration with law enforcement to address criminal incidents. As defined in EC, “tactical responses to criminal incidents” means safeguarding pupils and staff, securing the affected school premises, and apprehending the criminal perpetrator or perpetrators.

As allowable within EC 32281 (f) (1), this portion of the CSSP has been developed by district administrators in consultation with law enforcement officials and with a representative of an exclusive bargaining unit of employees of the District.

The strategies incorporate security measures, defensive tactics, and offensive responses.

Per EC 32281(f), the District has elected not to make the tactical response plans available to the public. Disclosure of such information could compromise student, staff, or officer safety and response tactics or interfere with law enforcement. As such, the information is deemed confidential.

BULLYING AND CYBERBULLYING PREVENTION

ED Code Reference

EC 32283.5; EC 234.4, AB 2291

Board Policy Reference

BP 5131.2

APPENDIX B.13

California defines bullying as “any severe or pervasive physical or verbal act or conduct” directed at one or more pupils that cause fear of harm, negative impacts on physical and mental well-being, poor academic performance, and interference with school activities.

District and school strategies focus on the prevention of bullying by establishing clear rules for student conduct to create a positive and inclusive school culture.

Bullying can take on a multitude of forms including hitting, kicking, spitting, verbal teasing, spreading rumors, sexual touching or assault, and many other harmful acts. Cyberbullying and cyber sexual bullying include acts of bullying that happen over the phone, via text message, through a website, on social media, or by any other electronic means.

This intentional aggressive behavior, which may occur in person or online, can have long-term harmful effects. In addition to the risk of physical injury, victims of bullying are at risk for depression, anxiety, suicidal behavior, physical health problems, substance abuse into adulthood, low academic achievement, and poor social and school adjustment.

California’s anti-bullying laws cover cyberbullying that happens off-campus as well as on-campus.

Liberty High School addresses bullying prevention and response in a manner consistent with District policy.

THREAT ASSESSMENT

BP 6164.2:

APPENDIX

In partnership with Riverside County Sheriff's Department, Perris Union High School District uses the STAR Protocol - School Threat Assessment and Response. The protocol is used for school-related incidents for prevention, threat assessment, intervention, and response to youth who are at risk of committing or have committed a violent act.

Members of the Multi-Agency Team (MAT) have agreed to the uniform implementation, enforcement, and reporting of incidents involving youth and guns/explosive devices or threats of great harm to students, schools, or school staff.

Based upon law enforcement's assessment of the situation, the Protocol may also be used for other weapon or broad-ranging criminal threat offenses.

The members of the Multi-Agency Team (MAT) have agreed in principle that:

1. Law Enforcement will investigate and prepare a written report of the circumstances of the incident. They will expand the investigation by contacting the parent(s) and/or legal guardian(s) and make a home visit to conduct a safety evaluation, immediately, upon receipt of information concerning potential threat of violence involving a school-site within our communities. The Aware to Care Exchange (ACE) Information Network, coordinated and managed by the District Attorney's Office, should also be considered for the benefit of real-time information sharing across school-sites.
2. The Probation Department (Probation) will detain the youth at Juvenile Hall pursuant to a law violation. The Detention Control Officer will notify the Juvenile Field Intake Unit of the youth being detained under the STAR Protocol. Information and assessment from the combined members of the team will be used to determine future intervention strategies, including continued detention.
3. The Riverside County Office of Education (RCOE) will make information available concerning the youth to the appropriate agencies, and serve as a liaison between MAT and local school districts.
4. The Riverside University Health System – Department of Behavioral Health (Behavioral Health) will administer and interpret the results of the Problem Behavior Inventory assessment tool within 24 hours of the youth being booked into Juvenile Hall, and complete an evaluation to determine if the youth is a danger to themselves or others. Information from other cooperating agencies will be considered while completing the assessment, which will be shared with members of the team where appropriate, pursuant to rules and regulations regarding confidentiality.
5. The District Attorney's Office (District Attorney) will review all reports for legal sufficiency and prosecute any youth found to have threatened great harm to students, schools, or school staff, or youth in possession of a gun, explosive device, or other dangerous weapons on a school campus. Prosecution against the parent, legal guardian, or responsible party will be enforced when appropriate. The District Attorney's Office will coordinate with the MAT to ensure the interests of public safety and the youth are protected.

6. The Department of Public Social Services (DPSS) Child Protective Services Division (CPS) will respond upon request from law enforcement to conduct a family and child welfare assessment to determine the overall well-being and functioning of other children in the home. CPS will also research its database to determine if there is an open file or CPS history on the youth or their family and share the information with the MAT.

7. The Juvenile Court judge will hear and make an order on School Threat Assessment and Response cases whenever a Juvenile Court petition has been filed.

8. The STAR Protocol will be reviewed and updated biennially.

Please refer to the STAR protocol for details on the program.

AR 3514.2, Integrated Pest Management

APPENDIX D.1

The District has an Integrated Pest Management plan (IPM) in place. The Plan addresses the requirements of the Healthy Schools Act, which encourages schools to use effective, least-toxic pest management practices.

The pest management objective for the Perris Union High School District is to focus on long-term pest prevention using the safest methods through monitoring and various inspection methods.

The Plan recognizes a pesticide application or other toxic substance can drift to school properties. This can pose an immediate risk to students and staff, and an extended risk due to residues.

State laws require buffer zones around schools to eliminate accidental exposure. As a preventative measure, the district monitors the spraying of pesticides on properties adjacent to school sites and any applications which may inadvertently affect a school site. This is accomplished through:

- Staff and student reporting any sightings of spraying to the school office.
- The school annually sending a letter to the property owners and occupants of adjacent properties regarding the need to advise the school of any planned applications, and details related to school operating schedule/calendar, with particular emphasis placed on commuting times and times when students and staff may be out on the grounds.
- The District also sends a letter to all registered pesticides companies within the District boundaries, citing the legislation and asking the proprietor to advise the school before any pesticide applications, or knowledge of toxic substance release.
- District kitchens are inspected monthly and treated by Western Exterminator.
- Schools are monitored and inspected daily by Custodians and Supervisors.
- Athletic fields and grounds are monitored by Groundskeepers.
- Issues and complaints are reported through the District's work order reporting system.

BP 0450, Comprehensive Safety Plan

An effective safety plan is dependent on strong relationships. Those relationships are built through clear and open communications both during the planning process and in times of crisis.

As standard practice, stakeholders are:

- invited to submit their questions and or suggestions to the School Safety Committee. The open invitation is posted on the school website.
- able to review the Plan as outlined below.

Stakeholders were notified of the Safety Plan through the following methods, along with the process being posted on the school website:

- Parents were notified that the Plan was available for review via Parent advisory group on 14 Feb 2023.

REQUEST TO REVIEW

- Requests to review the Plan can be made via email or phone.
- A scheduled appointment is necessary.
- The requester must sign into the Visitor Management system, and be subject to the same entrance criteria as other visitors, i.e., pass the clearance screening.
- The requester is not permitted to make copies or otherwise photograph or record any portion of the Plan.
