

**PERRIS UNION HIGH SCHOOL DISTRICT  
RESOLUTION NO. 21:22-23  
DESIGNATING CERTAIN PRODUCTS AND BRANDS PURSUANT TO PUBLIC  
CONTRACT CODE SECTION 3400 TO STANDARDIZE**

**WHEREAS**, the Perris Union High School District (“District”) is a California public school district subject to the California Public Contract Code (“PCC”);

**WHEREAS**, pursuant to PCC section 3400 and other applicable law, the District’s Board of Education (“Board”) may make a finding that designates certain brand products for District improvements in order for the District to standardize, and match certain existing products in use;

**WHEREAS**, pursuant to PCC section 3400, the Board desires to designate certain pieces of Carrier brand (“Carrier”) equipment used in HVAC systems, specifically: the Carrier I-View Energy Management System (“I-View EMS”), rooftop package air conditioning units (“Carrier Roof Units”), and wall-mount air conditioning units (“Carrier Wall Units”).

**NOW, THEREFORE**, the Board resolves, determines, and orders as follows:

**Section 1.** The recitals above are true and correct.

**Section 2.** The District, pursuant to PCC section 3400, intends to establish uniform, complete, and compatible standards for I-View EMS, Carrier Wall Units and Carrier Roof Units District-wide.

**Section 3.** The District has already installed close to two-hundred Carrier air conditioning units and accessory Carrier energy management systems throughout its sites as part of District modernization projects, which units will need to be matched for continuity of District maintenance and operation of its HVAC systems and controls.

**Section 4.** The ongoing maintenance, repair, and other HVAC-related work necessary for upkeep of HVAC units District-wide will be simplified, more efficient, and less costly if technicians are limited to designated Carrier manufacturer parts.

**Section 5.** Carrier EMS units permit Carrier air conditioning units to have full functionality which is not possible when other EMS manufacturer units are installed.

**Section 6.** The District has determined that I-View EMS, Carrier Wall Units and Carrier Roof Units have been consistently more reliable than other manufacturers, and perform much better than other units that have previously been used in District sites.

**Section 7.** The Board designates the products, brands, and services specified below to establish a District-wide standard for the following reasons:

- A. **I-View EMS:** I-View EMS controls are necessary because standardization will provide equipment consistency throughout the District allowing existing units and newly installed units to operate in tandem with management controls resulting in

efficient maintenance considerations, more reliable equipment and less costly repairs.

- B. **Carrier Wall Units and Carrier Roof Units:** Carrier Wall Units and Carrier Roof Units are necessary because standardization will provide equipment consistency throughout the District allowing existing units and newly installed units to operate in tandem with management controls resulting in efficient maintenance considerations, more reliable equipment and less costly repairs.

**Section 8.** The Board delegates authority to District staff to take all actions necessary to effect the intent of this resolution, including, but not limited to, describing the District’s findings in invitations for bids and other procurement documents.

**Section 9.** This resolution shall be effective immediately upon adoption.

**ADOPTED, SIGNED AND APPROVED** this 15th day of February 2023.
